<b>Point Number</b>	12.1	<b>Provision:</b>	948-23 Gibbston Character Zone > 1009-23.5 Rules - Standards >

**Position:** Oppose

**Summary of Submission** To specifically exclude wind machines from the height requirements in the Gibbston Character Zone. Council may wish to include some controls around this like for instance the colour of the structure (excluding the blades), and potentially a set back from Gibbston Valley highway. With controls such as those mentioned to minimise the impact of wind machines there is no reason why wind machines can not be a permitted activity.

**Summary of Submission**

- Increased building heights and density, especially near Queenstown centre. 4-5 storeys for residential, with hotels at increased heights.
- Prevent urban sprawl
- Create a nice urban feel and ambience
- Reduce car journeys by having people closer to the center
- Centre of Queenstown pedestrianised
- ban on all polluting vehicles from Queenstown
- free bus service that is paid for by car charges and a tourist tax
- Consider moving the airport well away from the town
- the building code to encompass PassivHaus standards to save power usage and make properties warm and healthy

**Summary of Submission**

Property Height and Density  
Would like all areas to have significantly higher property heights, especially towards the centre of Queenstown. Would like to see a far greater density with houses of 4-5 stories as the norm with hotel complexes even higher.

Energy Efficiency  
Would like the building code to encompass PassivHaus standards as the building standards in NZ and Queenstown are generally very poor

Transport  
Would like to see a ban on all polluting vehicles from Queenstown (see Zermatt and Vengen in Switzerland as examples).

**Summary of Submission**

- Not opposed to infilling in Arrowtown but has concerns over infrastructure impacts.
- Notes reduction in zone extent compared to the initial consultation version is a significant improvement
- Questions impact of infill on parking and traffic, particularly relating to Adamson Drive, Stafford St and Centennial Ave; and corners of Stafford and Berkshire Street.
- Questions impact of infill on low key infrastructure which is part of Arrowtowns character, eg. kerb and channel impacts
- Questions effect of revised recession planes and road setbacks on character and amenity
- Notes infill development should be gas reticulated and fire free to minimise air quality impacts
- Questions impact of infill on capacity of schools
- Requests strict design controls
- Questions how affordability will be met, considering the working population travel to Queenstown or Frankton.
- Supports infilling on a case by case basis, but considers proposed rules are too liberal.

<b>Summary of Submission</b>	If the District Plan sets the science and strategy for our district's future then I would recommend that there is an objective missing from Goal 1, that recognises a key element of the wellbeing of the QLDC community; Enable a community lead plan to develop employment pathways to contribute to the Disticts Economic activity. The region must be active in training and supporting young people in the employment opportunities that exist so their is less reliance on transient labour.

**Summary of Submission** concerned with change of categories for the Kingston Flyer. Retain the operative plan provisions for the protection of the Kingston Flyer. Investigate the possibility of purchasing the flyer. If the Authority will not do either of the above then ensure that the Kingston Community is not left with the physical mess to clean up after the Flyer is gone.

Submits the following:

- That the categories governing the Kingston Flyer remain at Category 1
  - QLDC have made changes to the protections without showing that anything has changed to warrant the change other than to appease the land owner
  - QLDC should purchase the flyer at a reasonable rate for onselling to a buyer that will continue its life in Kingston
  - Kingston will have lost an important part of its history if the categories are changed and the protection lifted.

That the eastern most buildings in the development (nearest the walkway) be restricted to 5m.

Depending on how the landscaping of the area is done and how the current hills etc. are flattened or enhanced, that breaking the visual amenity line of the lake from the walkway be a factor for consideration in the development of the whole area (whether this is within or in excess of the currently recommended 7m limit.).

That the development / design / materials / colour schemes used for the building on the eastern side of the area (nearest the walkway) be sympathetic to the fact that they will be viewed by tourists and locals using the scenic walkway. Given that the 'front' of the buildings will generally be towards the lake, their 'back' should be neat, tidy and sympathetic to the fact that it will, in part, be framing an area of significant scenic amenity.

<b>Summary of Submission</b>	Landscape is not only visual. Add noise regulations: On the lakes and rivers near habitations, speed limits must be reduced to a speed so that engines can't be heard from the shore. Sundays should be chainsaw, lawnmowers and loud machinery free. Banning chemical pesticides and fertilisers use or at least restrict it significantly.

**Point Number** 117.1 **Provision:** 57-3Strategic Direction  
**Position:** Support

**Summary of Submission** States the overall strategic direction is good. It may help to clarify that clean air and pristine water is for both urban and rural areas, not simply “out there” in the environment. Notes the need to be able to define qualitative terms, what is pristine, what characteristics are you measuring, how will you know? Bullet 4 Good to see encouragement of those transport options. Could also include wise resource use eg water use and energy.

<b>Position:</b>	Support		

<b>Summary of Submission</b>	Objective 3.2.4.2 Should also apply to significant waterways and their sources, eg Bullock Creek being a key example. Not convinced we should have policy 3.2.4.2.2 as it is a way to avoid 3.2.4.2.1. If you do include it say “environment compensation will be required” in other words strengthen it.		
<b>Point Number</b>	117.40	<b>Provision:</b>	57-3Strategic Direction > 59-3.2Goals, Objectives and Policies > 92-3.2.4Goal 4 > 101-3.2.4.5Objective 5
<b>Position:</b>	Support		
<b>Summary of Submission</b>	Objective 3.2.4.5 is good, if you add urban streams, but policy 3.2.4.5.1 isn't strong enough. Key areas such as the source of Bullock Creek, should be identified up-front so that there protection is secured prior to, during and after development. The current issue with Bullock Creek being inter alia the access of contaminants such as poly aromatic hydrocarbons and heavy metals to the springs feeding the Creek from road run-off.		
<b>Point Number</b>	117.41	<b>Provision:</b>	57-3Strategic Direction > 59-3.2Goals, Objectives and Policies > 92-3.2.4Goal 4 > 105-3.2.4.7Objective 7

<b>Position:</b>	Support		
<b>Summary of Submission</b>	3.2.4.8 The policy relates to mitigation. Should also have a policy relating to adaptation which for this District is hazard management related to climate change that recognizes more extreme events, potential flooding an rock-falls. Needs to be applied to key infrastructure and the location of developments.

**Summary of Submission** Objective 3.2.6.4 and policy 3.2.6.4.2 There should be obvious and easy connectivity between the open spaces in urban areas, considering both pedestrians and cyclists (not always together) to ensure that there really is a network between as well as within developments, not just a series of separate open spaces. They can also be ecological corridors for bird and insect life.

**Summary of Submission** Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

**Summary of Submission** Submitter owns property at 361 Beacon Point Road. Part of this land is zoned as LLR with the remainder zoned rural with a building restriction. Notes that the existing residence has a building height restriction of RL288.50 mean sea level (datum code DUNEHT 1958). Due to site instability issues, submitter notes that a building height limit "off the ground" would leave uncertainty as to the built height of any new residence.

Requests that the building height limit should be set at a specified RL, and the building height limit for any new residence should be RL288.50 mean sea level (datum code DUNEHT 1958).

**Summary of Submission**

The Glentarn decision near Glenorchy (C10/2009 Glentarn Group Ltd. V. QLDC) holds that the provisions of the Operative District Plan can only be interpreted as being very supportive of farming.

The provisions contained in the Operative District Plan be amended to tighten and clarify rules associated with farming activity on small lots such that “the primacy of landscape outcomes” are realised.

The Society seeks, as one possible option, changes to the Operative District Plan as follows:

The Operative District Plan policy 5.2.1.5 reads:

*1.5 Provide for a range of buildings allied to rural productive activity and worker accommodation*

The Society seeks this policy is amended in the Operative District Plan to read:

*1.5 Provide for a range of buildings allied to and necessary for the exercise of rural productive activity and worker accommodation. Any residential building proposed on the grounds that it is allied to and necessary for rural productive activity shall be subject to the same landscape assessment as any other proposed residential building and no weight shall be given in this assessment to associated rural productive activity.*

**Summary of Submission**

The Landscape Lines determined in the Proposed District Plan process are excluded from the Plan altogether because they are not credible.

Failing this the Society seeks that the Landscape Lines are included on District Plan maps as dotted lines and that the Landscape Lines are described as guidelines that are purely indicative.

If this course of action is taken the Society seeks that the text on maps in the Operative District Plan are amended and included in the Proposed District Plan as follows:

*“Boundary between two different landscape categories....these dotted lines have been determined under a broad-brush analysis as part of the District Plan process but have not yet been through the Environment Court process to determine their exact location and are not definitive. The dotted lines are purely indicative until their exact location has been determined through the Environment Court process.”*

Such an approach would give more certainty to landowners and applicants and would be consistent with the Act while at the same time accepting that only a fine-grained analysis under Court conditions can accurately define Landscape Lines where they are contentious.

**Summary of Submission** The Society supports goal 3.2.2 relating to Urban Growth and seeks that it is moved to Part 4 of the Operative District Plan as described above and in a separate submission.

The Society supports the reference to Climate Change 3.2.1.3.2 and seeks that this policy, or similar, is included in Part 4 District Wide Issues of the Operative District Plan.

The Society supports the proposed Part 3.2.4.7 relating to public access and seeks that this is moved to Part 4.4.3 of the Operative District Plan as described above and in a separate submission.

The Society seeks that the Strategic Direction chapter is deleted from the Plan. Parts of the Strategic Direction chapter that have some purpose (as described above) should be moved to the relevant parts of the Plan within the Operative District Plan structure.

The Society seeks the retention of the existing structure in the Operative District Plan and sees very little merit in the Strategic Direction chapter.

**Summary of Submission** The Society seeks that all of the provisions in the Operative District Plan relating to subdivision and/or development in rural areas are rolled-over in the exact form that they appear in the Operative District Plan but with amendments that are sought in other submissions made by the Society at this time.

The rural area amendments sought by the Society are detailed in other submissions.

The Society seeks that Council carries out an analysis of the economic impact of tourism to the District in relation to other activities (such as farming) that take place in the District.

**Point Number** 145.29 **Provision:** 11-4 Urban Development

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** The Urban Growth Boundaries are included on maps in the District Plan and by means of changing the existing policy 4.2.5.6 in the Operative District Plan to include Proposed District

Plan policy 3.2.5.3.1 and Proposed District Plan policy 6.3.1.7 to read:

#### 4.2.5.6 Urban Development

(a) Direct urban development to be within Urban Growth Boundaries (UGB) where these apply, or within the existing rural townships.

(b) When locating urban growth boundaries or extending urban settlements through plan changes, avoid impinging on Outstanding Natural Landscapes or Outstanding Natural Features and minimise disruption to the values derived from open rural landscapes

(ca) To avoid new urban development in the outstanding natural landscapes, ~~of Wakatipu basin~~ of the district.

(b) To discourage urban subdivision and development in ~~the other outstanding natural landscapes (and features) and in the visual amenity landscapes~~ Rural Landscape of the district.

(de) To avoid remedy and mitigate the adverse effects of urban subdivision and development where it does occur in the other outstanding natural landscapes of the district by:

- maintaining the open character of those outstanding natural landscapes which are open at the date this plan becomes operative;

- ensuring that the subdivision and development does not sprawl along roads.

(ed) To avoid remedy and mitigate the adverse effects of urban subdivision and development in visual amenity landscapes by avoiding sprawling subdivision and development along roads.

Changes have also been made to this policy to reflect the Society's position that seeks a single Outstanding Natural Landscape landscape category that applies across the whole District.

Delete the Outstanding Natural Landscape (District Wide) landscape category and all objectives, policies assessment matters, rules and any other references to this in the Operative District Plan.</li> <li>B. Change the name of the Outstanding Natural Landscape (Wakatipu Basin) landscape category to Outstanding Natural Landscape. Retain in the Plan all of the objectives, policies, assessment matters and rules in the Operative District Plan that apply or in any way relate to Outstanding Natural Landscape (Wakatipu Basin) in the exact same form as in the Operative District Plan (with exception of F and G below) but apply these to the new Outstanding Natural Landscape category. This category is to apply district-wide. Make any other changes necessary for the plan to be consistent with this or contingent on this. (See separate submission).</li> <li>C. Delete the Other Rural Landscape landscape category. Delete the Visual Amenity Landscape landscape category. Replace these two with a new Rural Landscape Category (RLC). Retain all of the objectives, policies, assessment matters, rules and any other references to the Visual Amenity Landscape landscape category in the exact same form as in the Operative District Plan (with the exception F, G, H and I below). Apply all of these Visual Amenity Landscape objectives and policies, assessment matters and rules to the new RLC landscape category.</li> <li>D. Delete the Part 3 Sustainable Management chapter in the Operative District Plan and replace it with the new "Part 1.1 Purpose" as proposed in the Proposed District Plan.</li> <li>E. Include Urban Growth Boundaries, per Part 6.3.1.7 of the Proposed District Plan, designed to minimise adverse effects of urban development on rural landscape integrity and values. The Society seeks that this policy is incorporated into or replaces the Operative District Plan Policy 4.2.5.7-Urban Edges. (See separate submission).</li> <li>F. Amalgamate Other Factors and Positive Effects into one single assessment matter section that applies to all 3 proposed landscape categories.</li> <li>G. Delete all text in Parts 4 and 5 of the Operative District Plan relating to "Explanation and Principal Reasons for Adoption" and "Implementation Methods" providing the deletion of such text has no bearing on the outcome sought in A-F above.</li> <li>H. Change the cumulative effects assessment matter to a test. The Society seeks that the Operative District Plan assessment matter 5.4.2.2.3. (d) is changed such that the words "the following matters shall be taken into account" are replaced by the words "the Council shall be satisfied that the following matters have been complied with:". (See separate submission).</li> <li>I. Add to the Operative District Plan RLC assessment matters a clustering design and density assessment matter <u>and</u> a spatial development tool based on the existing 500m and 1.1km assessment matter where it is stated that this pattern of development is the desired landscape outcome to control the adverse and cumulative effects of subdivision and residential development within RLC. (See separate submission).</li> <li>J. Change policy 5.2.1.5 in the Operative District Plan to make more explicit the primacy of landscape outcomes in light of the Glentarn decision (see separate</li> </ol>		

submission).

- K. Make any and all consequential amendments to the Plan consistent with A-J.
- L. The Society's position is not limited in scope by A-J in that other minor amendments may be useful such as:
  - Include additional activity definitions that will have a minor bearing on A-J such as the proposed definition for Rural Industrial Activities
  - Any other changes that are minor and/or inconsequential such as renaming, reordering and renumbering parts of the District Plan

There is no justifiable resource management reason for providing separate and increased noise limits for that part of Queenstown Town Centre shown marked 'Town Centre Entertainment Precinct' in the District Plan Review and making provisions for higher noise limits with the zone will result in significant adverse effects on properties both within the Precinct and in the vicinity of the Precinct, particularly for existing residential and visitor accommodation uses. There is no justification for Rules 12.5.11.2, 12.5.11.3, 12.5.11.4 which effectively allow excessive noise to 'spill over' into areas outside the Precinct in a manner that would depart from the standard noise provisions in the Plan which require that noise received from another zone (or sub-zone) comply with the noise limits for the zone within which the noise is received. There has been no or insufficient consideration been given to alternative options such as smaller increases in noise in areas within the proposed Precinct being assessed on a case by case basis by classifying those increases as discretionary or restricted discretionary activities with either full or limited notification.

2. Affordable Housing: Advocates building block of Council flats for low-wage employees of the hospitality and tourism industry; to be paid for from the six hundred million dollars subsidy this government has spent on the tourist industry.
3. Acknowledging Maori occupation history: On the Wanaka side of the hill there is no recognition of Maori occupation before Europeans arrived. As well as reasons of respect and acknowledgement, signage about our history would be an experience for visitors.
4. Urban Design: All developers should be informed of local urban design values set out in the booklet available from Council, and that adherence to these values is a necessary conditions of building consent.
4. Outdoor Fitness Equipment: The development of outdoor equipment parks (or areas set aside in parks) is overdue.
5. Protecting night sky: Agrees this is excellent idea.

**Summary of Submission**

Do not impose and enforce medium density with urbanised infill in Arrowtown. The preferred option is to change and extend the southern boundary this will allow for 400 dwellings approximately 1200 people to live within Arrowtown, while allowing the township to retain its unique character and charm.

**Summary of Submission** Council reaffirm the Arrowtown Growth Boundary as it is currently constituted.

Council suspend the introduction of terrace housing until agreement is reached with the Arrowtown community as to whether it is desirable, and if so what special design features would be needed to safeguard the town's character, heritage and appeal.

Council needs to acknowledge that modest infill has been part of Arrowtown's past and moderate infill is part of its future. Council has to realise that Arrowtown needs to be sensitively guided into increased infill. If all the Council's proposed district plan changes are adopted are aggressively forced onto Arrowtown, the fabric of the town and its heritage is likely to be severely damaged. in this case the community is likely to become increasingly hostile to what they see as yet another example of QLDC heavy handedness towards the town.

---

**Point Number** 172.2 **Provision:** 255-8 Medium Density Residential > 372-8.5 Rules - Standards

**Position:** Oppose

**Summary of Submission** Opposes the scale and intensity of proposed medium density housing provisions, specifically

**Submission** relating to density, homestar and boundary setbacks.

Council reduce the intensity and scale of the Arrowtown middle density zone as follows:

- Lift the proposed boundary setbacks from 1.5 to 2.5 metres.
- Increase the minimum section size for standalone homes from 250 square metres without Homestar 6 certification to 350 square metres and fix a minimum size for Homestar 6 certification projects to 300 square metres.

Suspend the introduction of terrace housing until agreement is reached with the Arrowtown community as to whether it is desirable and what design features are necessary to protect the towns character, heritage and appeal.

**Summary of Submission** Support proposed policy 12-2-2-2 but request that:

a) a clause be added such as '*Developers required to add positively to the availability of car parking spaces in CBD or near surrounds*'

b) provision be made for car parking based on the size of the building. At present workers are parking all day in the gardens and Park St, which is stopping genuine users of the Gardens from having somewhere to park.

c) the word 'historic' be added to the third point as follows. '*Positively respond to the Town Centre's historic character*' as the term 'Town Centre's character' is ambiguous and does not refer to the heritage of the Town Centre.

**Summary of Submission** The Body Corporate supports some aspects of the proposed plan, however for the most part opposes the proposed plan, in particular the proposed High Density Zone provisions.

The Body Corporate seeks the following decision from the Council:

(a) That the amendments to the High Density Residential Zone contained in the Proposed Plan be disallowed, and the Operative Zone provisions be retained, or equivalent provisions included in the Proposed Plan (i.e. status quo), including retention of the urban design panel

and associated urban design considerations; and

(b) That the amendments to the Low Density Residential Zone contained in the Proposed Plan in relation to the removal of the Operative Plan rule 7.5.5.2(xix) relating to Height and Elevation Restrictions along Frankton Road, be disallowed, and the Operative Zone provision be retained, or equivalent provisions included in the Proposed Plan (i.e. status quo); and

(c) That amendments be made to the Strategic Direction provisions to manage the form of urban development within UGBs by ensuring developments continue to be of a high quality and that adverse effects of development on nearby properties are appropriately avoided, remedied or mitigated; and

(d) That amendments be made to the Urban Boundary provisions to ensure adverse effects of development are appropriately avoided, remedied or mitigated; and

(e) That amendments be made to the Subdivision provisions to ensure lot sizes are appropriate and comprehensive design is undertaken; or

(f) That the relief in (a) - (e) above be allowed in relation to Lot 5 and the Pounamu Apartments site only (i.e. status quo for Lot 5 and Pounamu Apartments site); or

(g) That the Proposed Plan include a requirement (for example, by way of a Structure Plan with associated rules or the creation of a Special Zone, or similar) that Lot 5 be developed in a manner that has regard to and is integrated with development on the

Pounamu Apartments site, to address the concerns of the Body Corporate outlined in this submission; or

(h) That the Proposed Plan be amended in the manner set out in the attached table (**Annexure A**); or

(i) That the Proposed Plan be amended in a similar or such other way as may be appropriate to address the matters raised in the Body Corporate's submission; and

(j) any consequential decisions required to address the matters raised in the Body Corporate's submission.

<b>Summary of Submission</b>	<b>Amend 9.1 as follows:</b>
------------------------------	------------------------------

*"The High Density Residential Zone will provide for more intensive use of land within close proximity to town centres that is easily accessible by public transport, cycle and walk ways. In conjunction with the Medium Density Residential Zone, the zone will play a key planning role in minimising urban sprawl and consolidating growth in existing urban areas. In Queenstown, buildings greater than two storeys up to 7 or 8 metres in height (depending on whether the site is flat or sloping) are anticipated. Buildings that breach these height limits are appropriate only where neighbourhood amenity, access to sunlight and light, and view shafts can be protected and adverse effects on nearby properties can be avoided, remedied or mitigated, and are subject to high design quality and environmental performance... Development controls will provide some degree of appropriate protection for existing amenity values. However given the focus on intensification, over time some private and public views and amenities will be affected to varying degrees as the character of this area changes and evolves into one that is more urban. Small scale commercial activity will be enabled, either to support larger residential and visitor accommodation developments, or to provide low impact local services..."*

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** The Body Corporate is concerned by proposed changes to the High Density Residential Zone, particularly in so far as they relate to the former site for the Hilton Hotel Complex on land to the rear of and immediately adjoining the Pounamu Apartments, legally described as Lot 5 DP 351561, Certificate of Title reference 211090 (Lot 5).

There is currently an easement in place that runs through the centre of Lot 5 (refer attached plan) which is used for access purposes between the Apartments. The future development of Lot 5 will need to take account of and provide for this easement.

The Body Corporate is concerned that if the High Density Residential Zone is confirmed as notified, the close relationship of Lot 5 and the Pounamu Apartments may not be

appropriately recognised and provided for, and the amenity of the Apartments may be significantly affected.

the Body Corporate is particularly concerned by the following proposed changes to the High Density Residential Zone:

- (a) the watering down of the focus in the objectives and policies on protection of amenity values;
- (b) increased building height;
- (c) relaxed site coverage controls;
- (d) changes to recession plane requirements;
- (e) reduced front and side boundary setbacks;
- (f) no outdoor living requirements;
- (g) removal of specific urban design considerations, assessment criteria and the urban design review process; and
- (h) the Floor Area Ratio requirement.

The Body Corporate considers that the history of Lot 5 and its relationship to the Pounamu Apartments, should be recognised and provided for in the Proposed Plan, as should the existing character of the Apartments and the amenity enjoyed by the Apartment's residents. To this extent, the Body Corporate considers that the new zoning should encourage visitor accommodation development on Lot 5 that integrates with and recognises the historical relationship between development on the Pounamu Apartments' site and Lot 5.

**Position:** Oppose

**Summary of Submission** Several key policies of the Operative Plan (such as Part 7, Policy 3.4) recognise the world class landscape that Queenstown sits within. Development should reflect these significant landscape values and this should remain a policy in the Proposed Plan.

**Amend** by adding the following policy:

*Ensure that external appearance of buildings reflect the significant landscape values and enhance a coherent urban character and form as it relates to the landscape.*

---

**Point Number** 208.45 **Provision:** 26-9 High Density Residential > 28-9.2 Objectives and Policies > 31-9.2.2 Objective 2

**Position:** Oppose

**Summary of Submission** **Amend** by adding a new policy after 9.2.2.7 as follows:

*Policy 9.2.2.8 Ensure that development is designed to have regard to and where appropriate reflect, the existing character of neighbouring properties and neighbourhoods, particularly in regards to design, scale and appearance*

---

**Point Number** 208.46 **Provision:** 138-7 Low Density Residential

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** the Body Corporate supports the retention of the Low Density Residential Zone on the lake side of Frankton Road opposite the Pounamu Apartments however it is concerned that a significant provision which protects views out across the lake is to be removed (ie 7.5.5.2(xix) Height and Elevation Restrictions along Frankton Road). Therefore, the Body Corporate considers that this Operative rule should be retained.

**Summary of Submission** General support.

In general i support the proposed structure and general intent of the PDP with the exception of the following Section 8 Medium Density  
With regard to medium density more thought needs to be given in regard to design, location and mix of densities within the proposed MD zone. The inclusion of buffer zones, affordable housing styles, public open spaces and parking cannot be dealt with in isolation and MD zone should be accompanied by a structure plan resulting from proper design and investigation. For example can the roading structure of anderson road, aubrey road, kings drive and lakeside trce cope with the addition of desity of scurr heights (in the context of all future zoned developments such as kirimoko and northlakes. I support the idea of providing a range of housing types and densities but this needs more work of this location. Section 11 Large Lot Residential/ Section 22 Rural Residential  
In general i support the concept of making residential building easier in the LLR/RR but oppose the creation of an additional zoning type. The RR zone should either be ammended to deal with the required outcomes or be replaced in its entirety by the LLR. The duplication of zones for comparable outcomes in not helpful and creates confusion for owners. Section 13 Wanaka Town Centre  
I Strongly Oppose the increase height limits in the Wanaka Town Centre. There are only a small number of existing buildings (4 i think) that come anywhere near the existing height limits for the wanaka town combined with the associated ammenity loss and extreme parking demand created by additional building allowances is a massive future problem for the wanaka town centre. I recommend expanding the towncentre and buffer zones further backwards to provide for demand needs for the future without going up. Regardless NO additional development of the town centre should be promoted through the DP untill such time as the council can provide appropriate parking for all demand and that all development is levied (based on floor area) a contribution for the parking required and generated by the development. Pushing up will further add to this problem and create an undesirable cost on rate payers to pay for additional parking. This cost should be largely born by the developers creating the demand.

---

**Point Number** 225.2 **Provision:** 592-13 Wanaka Town Centre

**Position:** Oppose

**Summary of Submission** I strongly oppose any increase in height limits for wanaka and that much more work needs to be done on the impact of proposed height limits, and density changes on the parking and traffic issues associated with the increased demand. The wanaka town centres biggest issue in the future will be parking provision and given that the town centre is currently at no more than 50% of its permitted development, the introduction of higher height limits will add to an already significant problem, the introduction of a financial parking levi in leiu of providing parking onsite privately is essential to assist the community in servicing this demand created by commercial development and avoid significant conjestion and financial burden on residents.

<b>Summary of Submission</b>	The Guardians of Lake Hawea consider that the QLDC District Plan needs to include specific mention of water quality. The District Plan should contain a section stating how storm water and water runoff are monitored; and the QLDC should plan more secure infrastructure and monitoring for the township, which is no longer a holiday destination alone, but now includes many permanent residences and is still growing rapidly.

Because of the proximity to the commercial area both sides of Russell Street are the natural progression of commercial zoning, and, as well, businesses are already operating there.

**Summary of Submission**

There is a high emphasis on rural land in this chapter. It is also based almost entirely around preserving the natural or physical landscape. Landscape does not have boundaries. It continues right into the centre of our town centres and this needs to be recognised. Our urban environment – streets, parks, reserves, beaches and lake edges, built heritage and urban form are all an integral part of landscape. Landscape should be considered holistically. Farming is a cultural construct, farmers are custodians of the land not museum curators.

**Summary of Submission**

That Queenstown Town Centre design guidelines 2015 be expanded to include the following points or, failing that, to include these points in the zone purpose, noting that the guidelines are only about buildings, which alone does not define character and that more analysis is needed:

1. Include council landscaping (including hard and soft) standards and guidelines.
  2. Natural features (land form, water, significant vegetation)
  3. Major roads and pathways
  4. Grids (subdivision patterns, permeability, geometry, permeability, hierarchy, discontinuities)
  5. Public open spaces (orientation, pedestrian routes)
  6. Built form (landmarks, heritage features, building types, building scale, density coverage, distribution of fronts and backs, spatial definition-degree of enclosure, recurring relationships of buildings and public spaces)
  7. Existing circulation patterns (pedestrian, vehicle, public transportation, distribution of activities, density and intensity)
  8. Experiences (way finding, memorable sequences, views) This analysis would guide building form and public space.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** supports the provision in part. Suggested rewording as below:

- Dramatic alpine landscapes free of inappropriate development
  - Clean air and pristine water
  - Vibrant and compact town centres **that are well designed, high quality urban environments"**.
  - Compact and connected settlements **urban areas defined by urban growth boundaries** that encourage public transport, biking and walking
  - Diverse, resilient, inclusive and connected communities
  - A district providing a variety of lifestyle choices
  - An innovative and diversifying economy based around **higher value jobs and industries**
  - A unique and distinctive heritage
- Distinctive Ngai Tahu values, rights and interests This direction is provided through a set of Strategic Goals, Objectives and Policies which provide the direction for the more detailed provisions related to zones and specific topics contained elsewhere in the District Plan

**Point Number** 238.65 **Provision:** 464-12 Queenstown Town Centre > 465-12.1 Zone Purpose

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** That Queenstown Town Centre design guidelines 2015 be expanded to include the following points or, failing that, include points 1-7 in zone purpose, noting that the Design Guidelines are only about buildings, which alone does not define character:

1. Natural features (land form, water, significant vegetation)
2. Major roads and pathways
3. Grids (subdivision patterns, permeability, geometry, permeability, hierarchy, discontinuities)
4. Public open spaces (, orientation, pedestrian routes)
5. Built form (landmarks, heritage features, building types, building scale, density coverage, distribution of fronts and backs, spatial definition-degree of enclosure, recurring relationships of buildings and public spaces)
6. Existing circulation patterns (pedestrian, vehicle, public transportation, distribution of activities, density and intensity)
7. Experiences (way finding, memorable sequences, views)
- 8.Council landscaping (including hard and soft) standards and guidelines.

**Point Number** 238.66 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 467-12.2.1 Objective 1.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend as follows as unclear what "administrative" means: *"A Town Centre that remains relevant to residents and visitors alike and continues to be the District's principal mixed use centre of retail, commercial, ~~administrative~~, local government, entertainment, cultural, and tourism activity"*

---

**Point Number** 238.67 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 467-12.2.1 Objective 1. > 468-12.2.1.1

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend the policy as follows as it is unclear what 'satisfactorily mitigated' means: *"Enable intensification within the Town Centre through providing for greater site coverage and additional building height provided effects on key public amenity and character attributes are in accordance with best practice Urban design principles."*

---

**Point Number** 238.68 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 467-12.2.1 Objective 1. > 471-12.2.1.4

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend this policy as follows as it is questioned why we should accept a lower level of amenity- it is just noise - and some people will love noise and choose to be in that area and we need to design for this:

*" Enable residential activities and visitor accommodation activities while acknowledging that there will be ~~be~~ a lower level of residential amenity... increased noise and activity due to the mix of activities and late night nature of the town centre"*

---

**Point Number** 238.69 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 472-12.2.2 Objective 2

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Good to see acknowledgement of sense of place/ identity in this objective but request more information on what this actually means. Does the Queenstown Town Centre strategy need updating?

---

**Point Number** 238.70 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 472-12.2.2 Objective 2 > 473-12.2.2.1

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Support the Council requiring development in the Special Character Area to be consistent with the design outcomes sought by the Queenstown Town Centre Design Guidelines 2015 but request that the guidelines or zone purpose be expanded to cover the following point and that developments are reviewed by the QLDC Urban design Panel:

- Include council landscaping(including hard and soft) standards and guidelines.
- Natural features (land form, water, significant vegetation)
- Major roads and pathways
- Grids (subdivision patterns, permeability, geometry, permeability, hierarchy, discontinuities)
- Public open spaces (orientation, pedestrian routes)
- Built form (landmarks, heritage features, building types, building scale, density coverage, distribution of fronts and backs, spatial definition-degree of enclosure, recurring relationships of buildings and public spaces)
- Existing circulation patterns (pedestrian, vehicle, public transportation, distribution of activities, density and intensity)
- Experiences (way finding, memorable sequences, views) This analysis would guide building form and public space.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend the first bullet point of the policy as follows to avoid difficulties in quantifying or judging "superior" design (i.e. what can that mean. not just about buildings but spaces, connections etc...): *"Allow buildings to exceed the discretionary height standards in situations where: • ~~The outcome is of a high quality design, which is superior to that which would be achievable under the permitted height;~~ - reviewed by urban design panel; and - there is positive public engagement with the street...*

---

**Point Number** 238.72 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 472-12.2.2 Objective 2 > 477-12.2.2.5

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** 1) Amend policy 12.2.2.5 as follows as it is important that pedestrian links are open to the sky and in recognition that our lanes and alleyways at a small grain are a big feature of Queenstown:

"b) ...

- *Provision of sunlight to any public space of prominence or space where people regularly congregate*
- *Provision of a pedestrian link open to the sky*
- *Provision of high quality, safe public open space*

- *Retention of a view shaft to an identified landscape feature*
- *Promote restoration and opening up of Horne Creek*

2) Identify/ list the "identified landscape features" referred to in Policy 12.2.2.5 in a document somewhere and state who has identified them.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Add the following further Policy in recognition that Council has a role in managing and investing in street environment and encouraging vitality through both soft and hard landscaping (council should lead the way in this regard):

*"12.2.2.10 Council will invest ,maintain and promote excellent urban design and amenity in all council owned and managed public spaces"*

**Point Number** 238.74 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 482-12.2.3 Objective 3. > 486-12.2.3.4

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Mostly support Policy 12.2.3.4 but amend it as follows in order to recognise that density should not create less amenity but, rather, should create more vibrancy:

*"Enable residential and visitor accommodation activities within the Town Centre while: (a) Acknowledging that these areas will be noisy and active level of amenity will be lower than in residential zones due to the density, mixed use, the late night nature of the Town Centre and requiring that such sensitive uses are insulated for noise."*

**Point Number** 238.75 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives and Policies > 489-12.2.4Objective 4 > 490-12.2.4.1.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Support Policy 12.2.4.2 but amend by adding the following bullet points in recognition that pedestrian experiences are greatly enhance by small laneways and of the importance of opening up Horne Creek:

*"... e) Laneways and small streets open to the sky are a key feature of Queenstown character and should be promoted and encouraged wherever possible.*

*f) Horne creek is a key feature of Queenstown character and should be promoted as both a visual and pedestrian feature wherever possible"*

**Point Number** 238.76 **Provision:** 464-12 Queenstown Town Centre > 466-12.2 Objectives

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend Policy 12.2.4.5 as follows:

*"Plan for future public transport options by considering the needs of public transport services and supporting infrastructure when designing roading improvements or considering jetty applications."*

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Generally support Policy 12.2.5.6 but amend it as follows in recognition that it is not just location and appearance that need to be considered but also blocking views, filling up harbour etc.:

*"Provide for structures within the Queenstown Bay waterfront area subject to ~~compliance with strict location and appearance criteria~~ review by the urban design panel!"*

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Request:

- Restricted discretionary activity status for buildings that go through the urban design panel and full discretionary status for all others as there needs to be some incentive.

(Also, it is not just about external appearance etc and who gets to say these are the right colours - will we always have to think in recessive colours, who gives permission to go outside the square, safe stuff?); and

- That all buildings in the town centre be subject to review by urban design panel

<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	The pedestrian link map is an insufficient size and the format is not supported and it should be renamed a "permeability" map.  The map should be amended (as further detailed in the map attached to the submission) to: <ul style="list-style-type: none"><li>• Show desired locations/ future pedestrian linkages rather than just existing ones, and fails to show important links that have been introduced since the last map - i.e. Ngai Tahu courthouse area and opening up of Horne creek. Horne creek should be included.</li><li>• Encompass Gorge Road retail and expanded town centre and show all existing and desired links.</li><li>• Show what will be required, not just in this zone but in all town centre, mixed use zones</li></ul> The map is too restrictive- shows erosion of former links into covered in ,ghastly malls which we don't want.  There could be incentives - i.e. height etc for linkages offered in desired areas.

<b>Point Number</b>	238.83	<b>Provision:</b>	81-6 Landscape > 82-6.1 Purpose
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Supports in part.  Requests Council add natural and urban to first paragraph:  <i>6.1 Purpose</i> <i>The purpose of this chapter is to recognise the <u>natural and urban landscape</u> as a significant resource to the district and region. This resource requires protection from inappropriate</i>		

activities that could degrade its qualities, character and values.

---

**Point Number** 238.84 **Provision:** 81-6 Landscape > 83-6.2 Values

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Supports in part.

Add sentence below first paragraph and amend as follows:

*The District's landscapes are of significant value to the people who live in, work in or visit the District. The District relies in a large part for its social and economic wellbeing on the quality of the landscape, open and urban spaces and environmental image.*

*The District's natural landscapes are experienced by residents and visitors at the 6 major town centres ( Queenstown, Wanaka, Arrowtown, Frankton, Kingston & Glenorchy).*

*The quality of these town centre urban landscapes, and how they relate to natural landscape is integral to the natural landscape experience.*

*The natural and physical landscapes consist of a variety of landforms created by uplift and glaciations, which include mountains, ice-sculpted rock, scree slopes, moraine fans, a variety of confined and braided river systems, valley floors and lake basins. These distinct landforms remain easily legible and strong features of the present landscape.*

*Indigenous vegetation also contributes to the quality of the District's landscapes. Whilst much of the original vegetation has been modified, the colour and texture of indigenous vegetation within these landforms contribute to the distinctive identity of the District's landscapes.*

*The open character of ~~productive farmland~~ rural land is a ~~key one key~~ element of the landscape character which can be vulnerable to degradation from subdivision, development and non-farming activities. The prevalence of large ~~farms and~~ landholdings contributes to the open space and rural working character of the landscape. The predominance of open space over housing and related domestic elements is a strong determinant of the character of the District's rural landscapes. Some rural areas, particularly those closer to Queenstown and Wanaka town centres and within parts of the Wakatipu Basin, have an established pattern of housing on smaller landholdings. The landscape character of these areas has been modified by vehicle accesses, earthworks and vegetation planting for amenity, screening and shelter, which have reduced the open character exhibited by larger scale ~~farming activities.~~ landholdings While acknowledging these rural areas have established housing, a substantial amount of subdivision and development has been approved in these areas and the landscape values of these areas are vulnerable to degradation from further subdivision and development. It is realised that rural lifestyle development has a finite capacity if the District's distinctive rural and open landscape values are to be sustained. ...etc*

**Point Number** 238.92 **Provision:** 26-16Business Mixed Use Zone  
> 27-16.1Purpose

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Supports in principle but needs additional/changed wording around natural features, Council responsibility to manage street, does not support map as Considers that the potential of opening up Horne Creek to provide an urban interface between mixed use and the high density residential has not been explored. Mixed use should operate on both sides of road. Should be mixed use on gorge road and residential behind, potentially separated by creek.

Council should prioritise undergrounding of power lines , wide footpaths and streetscape to facilitate and showcase urban outcome required on Gorge road.

States that this is a new zone and we need to set a good precedence for mixed use by encouraging high design standards and use of urban design panel.

Requests the Zone be called "Mixed Use" as opposed to "Business Mixed Use"

Requests the zone be extended as shown on Map 1 attached to the submission.

**Summary of Submission** Supports in Part. Requests the Business Mixed Use zone be extended as shown on Map 1 attached to the submission.

Requests the following:

- Use the natural boundary with Horne Creek to separate the high density res from mixed use.
  - Put mixed use on main roads, high density behind.
  - Put in permeability linkages, not just Horne creek- base of Queenstown Hill , landmark buildings, green spaces, view shafts etc...(refer also permeability map attached to Queenstown Town Centre zone)

> 52-16.4Rules - Activities

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Supports in part. States there is insufficient detail about urban design outcomes, outdoor space requirements etc. Feels use of urban design panel should be encouraged as a restricted discretionary activity, otherwise this is a fully discretionary activity. Very concerned about removal of all assessment matters.

Requests the following:

- Include outdoor living requirements.
- Promote use of urban design panel.
- Consideration of Horne Creek where fronting Horne creek , view shafts etc. Council needs to take responsibility for streetscape and show desired walkways and linkages, consideration of opening up Horne Creek.

<b>Summary of Submission</b>	As the current online documents available on QLDC's website (along with Map 8) are not detailed enough, it is not possible to comprehend a true boundary between ONF line and Visual Amenity Landscape. We would like QLDC take into consideration new outlined boundary as per attached scanned document, where the line is following the exact contours of the mountain. It does seem that every time an ONF assessment is made, more and more ground is included into ONF area and we don't believe that alluvial fans are part of the ONF area and should be inside the line.

<b>Summary of Submission</b>	I don't think it is council's place to encourage future growth of ski areas. It is not Council's place to encourage any business. The Plan should recognise and attempt to control the effects of lights used both for night skiing and for snow making. I don't think there should be a commitment to allow for continuation of the SHPG. If that business has resource consent then they can continue. If they want to expand, then need to apply for resource consent and have this assessed as any other business would.

**Noise** - Ldn: delete the day/night level, . I thought that this measure was not accepted by QLDC when last advertised? Any level of noise can be made to meet a standard by averaging it over a long enough time period. This level has been introduced simply to allow helicopter noise. Why are helicopters a special case? They should meet the noise standards as every other activity is required to do.

<b>Summary of Submission</b>	Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

**Summary of Submission** Support the creation of an Entertainment Precinct (EP) within the Town Centre but oppose the current boundaries and request that the entertainment precinct boundary be extended to include the area behind Rees Street, along the green and the Steamer Wharf. Pog Mahones is a long time (17 years) business in Queenstown. As the plan rightly points out a vibrant waterfront area is essential to maintaining Queenstown's reputation as a premier destination - it is essential therefore that the Queenstown Bay waterfront be part of the EP as well as Steamer Wharf.

**Summary of Submission** Objective 12.3.3 and Policy 12.2.3.3 (i.e. (a) Enable night time dining and socialising in varying degrees through out the town centre). Agree with the Objective provided businesses are treated fairly and equally and that all businesses that have current outdoor areas in the CBD are allowed to offer extended outside dining and socialising until at least 12 am, in line with most tourist destinations and modern cities. This activity shouldn't just be only for those in the proposed Entertainment Precinct or those currently on old licences or on trial at the wharf, but for all businesses in appropriate areas such as Ballarat Street (from Camp Street to Stanley Street) as there are no accommodation providers in the area and the majority have good outdoor areas for patrons which adds to the vibrancy as you enter the CBD.

**Point Number** 251.11 **Provision:** 26-30 Energy and Utilities > 27-30.1 Purpose

**Position:** Support

**Summary of Submission** Support in part. PowerNet seeks that the following changes be made to the Chapter purpose:  
*Utilities are essential to the servicing and functioning of the District and have national, regional and local benefits. Utilities have the purpose to provide a service to the public and are typically provided by a network utility operator. Due to the importance of utilities in providing essential services to the community, their often high capital cost to establish, and their long life*

expectancy; the need for the future establishment and on-going functioning, maintenance and upgrading of utilities is recognised. In addition, some utilities have specific locational needs that need to be accommodated for their operation. The co-location of utilities may achieve efficiencies in design and operation, reduce capital investment costs and also minimise amenity and environmental effects. ~~The ability to co-locate compatible uses should be considered for all utility proposals.~~

~~While it is recognised while that utilities can have national, regional and local benefits, they can also have adverse effects on the environment surrounding land uses, some of which have been established long before the network utility.~~ The sustainable management of natural and physical resources requires a balance between the effects of different land uses. However, it is also necessary that essential utilities are protected, where possible, from further encroachment by incompatible activities which may be subject to reverse sensitivity effects. This chapter therefore also addresses requirements for sensitive uses and habitable buildings located near to utilities.

**Position:** Oppose

**Summary of Submission** Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas

should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

<b>Summary of Submission</b>	Support a range of housing needs being provided within the district and we agree that there is the ability to absorb this housing in the overall Jacks Point Zone, providing this development is controlled to be sympathetic to the environment. However the proposed provisions do not sufficiently achieve this.

**Summary of Submission** With the exception / incorporation of points raised in support of the proposed District Plan in this submission, reinstate the Operative District Plan rules as they relate to the Jacks Point portion of the Jacks Point Special Zone, noting that the proposed rules are not prescriptive enough to ensure a high quality of landscape and visual amenity and urban design consistent with the receiving environment of Jacks Point.

**Summary of Submission** Requests the ONL lines be reviewed.

Submitter objects to the ONL lines which have been drawn on the new district plan maps. Submitter notes that in the Morven Ferry Neighbourhood (shown on proposed planning map 30) it has been drawn in where there was no line before, running through paddocks that have been ploughed and heavily modified. On the submitters neighbouring property Doonholm the ONL line has been shown on the developed paddocks well out from the base of Morven Hill, and considers that this line should be moved back to the paper road at the base of Morven Hill. Requests that the ONL line should actually run up and over the top of Morven Hill leaving the back side away from Lake Hayes open for recreational development such as down hill mountain biking.

<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

<b>Summary of Submission</b>	<p>That ONL lines be deleted from the Proposed District Plan and replaced when consultation form the community has taken place.</p> <p>ONL should not include any flat land in the Wakatipu Basin that has been modified by pastoral farming.</p> <p>The ONL line should be deleted around the top of the Rural Residential on Morven Hill (shown on Proposed Planning Map 30) and placed at a level that is slightly higher than the saddle at the Western end of Morven Hill. **Summary of Submission** That ONL lines be deleted from the Proposed District Plan and replaced when consultation from the community has taken place. ONL should not include any flat land in the Wakatipu Basin that has been modified by pastoral farming. The ONL line should be deleted around the top of the Rural Residential on Morven Hill (shown on Proposed Planning Map 30) and placed at a level that is slightly higher than the saddle at the Western end of Morven Hill. This would then protect the view from Lake Hayes of the Western side of Morven Hill. The line on the Eastern side of Morven Hill now is also through ploughed paddocks and puts more than one residential house in ONL. The line should be deleted. The ONL around Punt Hill, (the Hill on the western side of Morven Ferry Road adjacent to the Kawarau River) should be deleted and placed on the front side of the hill above the track at power transmission line height.

**Summary of Submission**

Arrowtown should not get any medium density zone.

Arrowtown boundary should stay as it is.

Design guidelines for Arrowtown for any new building, alteration and streetscape landscaping controlled by Arrowtown design review board.

6star rated homes should not have any special rules in regards to density - they should fall under the normal rules. Every house in the Wakatipu should be homestar 6 rated.

No more wood fires too be allowed in new Arrowtown houses or no upgrading to wood fires allowed.

Density should not only talk about percentage of building per site but also about how much area can be sealed (driveways - patios). More permeable surface are a must.

Rainwater should be stored in tanks on site to be used for toilet flushing and garden watering. Financial support by the council.

<b>Point Number</b>	313.3	<b>Provision:</b>	174-34 Wilding Exotic Trees
---------------------	-------	-------------------	-----------------------------

<b>Position:</b>	Support		
<b>Summary of Submission</b>	More emphasis district wide, not just Wakatipu Basin. The District Plan needs to develop a strategy to manage existing wilding and exotic trees and shrubs which pose a threat to “landscape, biodiversity and soil resource values” in the entire district		
<b>Point Number</b>	313.4	<b>Provision:</b>	26-33 Indigenous Vegetation and Biodiversity
<b>Position:</b>	Support		
<b>Summary of Submission</b>	The plan needs to have a clear statement under Purpose which relates to enhancement of vegetation and biodiversity with supporting objectives and policies. That is increasing our indigenous vegetation and biodiversity both on private and public lands. Recommendation: The Plan should seek to reduce any further loss of indigenous vegetation. This should be stated under Purpose. Policy and objectives to such that if loss is unavoidable an equivalent “offset” planting should be required either on the same site or elsewhere.

<b>Summary of Submission</b>	Require council approval for any future changes to the Jacks Point residential design guidelines (as is currently the requirement) to ensure independence and alignment with the objectives and policies.		
<b>Point Number</b>	316.2	<b>Provision:</b>	287-41 Jacks Point Zone
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP and that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP; b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this; c) the provisions should generally reflect where applicable, the intent of the covenants and consent notices for this zone (e.g. relating to residential flats and the further subdivision of certain areas).		
<b>Point Number</b>	316.3	<b>Provision:</b>	287-41 Jacks Point Zone > 289-41.2 Objectives and Policies > 290-41.2.1 Objective 1
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in this submission in support of the proposed District Plan, reinstate the Operative District Plan objectives and policies of the Jacks Point portion of the Jacks Point Special Zone, with the policies established through the Plan Change 44 process applied to Hanley Downs only.		
<b>Point Number</b>	316.4	<b>Provision:</b>	287-41 Jacks Point Zone > 456-41.7 Structure Plan
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in this submission in support of the proposed District Plan, reinstate the Operative District Plan Structure Plan for the Jacks Point portion of the Jacks Point Special Zone. The current structure plan should remain operational and unchanged with the relevant land use and activity areas remaining as they are. All the areas within Jacks Point zoned as G and G/F on Figure 1, including the areas owned by the Jacks Point Residents and Owners Association and Lot 12 DP 364700 should remain as per the existing structure plan.

---

<b>Point Number</b>	316.8	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in support of the proposed District Plan in this submission, reinstate the Operative District Plan rules as they relate to the Jacks Point portion of the Jacks Point Special Zone, noting that the proposed rules are not prescriptive enough to ensure a high quality of landscape and visual amenity and urban design consistent with the receiving environment of Jacks Point.		

---

<b>Point Number</b>	316.9	<b>Provision:</b>	287-41 Jacks Point Zone
<b>Position:</b>	Support		
<b>Summary of Submission</b>	Support separating the areas within the Jacks Point Zone from the Millbrook and Waterfall Park Zone, as they are different from each other and do not share a sufficient number of common attributes to be considered together.		

---

<b>Point Number</b>	316.10	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 327-41.4.1
<b>Position:</b>	Support		
<b>Summary of Submission</b>	Support removing the requirement for controlled resource consent within Jacks Point when applying to construct a residential property, as due to the covenants on each residential title, this is already rigorously and successfully controlled to a high built and landscape standard consistent with the vision and ethos of Jacks Point.		

---

<b>Summary of Submission</b>	Requests that regular lake and ferry services and the existing service be expanded. Also suggests that a mono rail from the shopping and sports areas to Queenstown would be ideal and probably the best solution of all. Seeks that the Council think a head and break away from the world wide problems caused by obsessions with motor car and lack of public transport.

**Summary of Submission** Build the conference centre/hotel/Ngai Tahu pools/use QLDC land for high rise accommodation in partnership with professionals.

Supports the general direction in terms of higher density and selecting the correct sites for some high rise condominiums to tackle the population increase.

Requests that QLDC consider joint ventures with local or national developers to build the capacity required to house the future population - for example the motor camp and Gorge Road.

Prioritise Queenstown to keep it a tourist Mecca.

**Summary of Submission** Radio New Zealand owns and operates a radio transmission facility at 1 Grove Land, Kelvin Heights (located on the Kelvin Heights Golf Course). It is important that the continued operation, maintenance and improvement of Radio New Zealand's national transmission network can occur unimpeded.

Opposes the proposed Designation #560 - Local Purpose Reserve (Repeater Site). RNZ is not aware of any repeater site being operated by the council on this land, or any proposal by council to operate a repeater site on this land. RNZ has had no communications from the Council as to why the Council considers a designation over RNZ facilities is required. Does not support any proposal which would put at risk RNZ's existing use rights over the site.

RNZ submits that the council has not established that it has financial responsibility for the public work to satisfy the requirements for a Notice of Requirement.

<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Oppose in part.  Amend Policy 3.2.5.1.1 as follows:		

*Identify the district's Outstanding Natural Landscapes and Outstanding Natural Features on the District Plan maps, and protect them from the adverse effects of inappropriate subdivision, use and development.*

---

**Point Number** 355.4 **Provision:** 81-6 Landscape > 84-6.3 Objectives and Policies > 85-6.3.1 Objective 1

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Support in part.  
Amend Objective 6.3.1 as follows:  
*The District contains and values Outstanding Natural Features, Outstanding Natural Landscapes, and Rural Landscapes that require protection from inappropriate subdivision, use and development.*

---

**Point Number** 355.5 **Provision:** 81-6 Landscape > 84-6.3 Objectives and Policies > 85-6.3.1 Objective 1 > 88-6.3.1.3

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend Policy 6.3.1.3 as follows:  
*That subdivision and development proposals located within ~~the~~ an Outstanding Natural Landscape, or an Outstanding Natural Feature, be assessed against the assessment matters in provisions 21.7.1 and 21.7.3 ~~because subdivision and development is inappropriate in almost all locations, meaning successful applications will be exceptional cases.~~*

---

**Point Number** 355.6 **Provision:** 81-6 Landscape > 84-6.3 Objectives and Policies > 85-6.3.1 Objective 1 > 89-6.3.1.4

**Position:** Oppose

**Summary of Submission** Opposes the provision.  
Amend Policy 6.3.1.4 as follows:  
*That subdivision and development proposals located within the Rural Landscape be assessed against the assessment matters in provisions 21.7.2 and 21.7.3 ~~because subdivision and development is inappropriate in many locations in these landscapes, meaning successful applications will be, on balance, consistent with the assessment matters.~~*

---

**Point Number** 355.7 **Provision:** 81-6 Landscape > 84-6.3 Objectives and Policies > 85-6.3.1 Objective 1 > 97-6.3.1.12

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Opposes in part. It is submitted that the Policy be amended to indicate the need for a method to indicate the location and nature of values to which particular regard is required to be had.  
Amend Policy 6.3.1.12 as follows:  
*Recognise and provide for the protection of Outstanding Natural Features and Landscapes from inappropriate subdivision, use and development with particular regard given to values identified*

*by a method in this Plan relating to cultural and historic elements, geological features and matters of cultural and spiritual value to Tangata Whenua, including Tōpuni.*

<b>Summary of Submission</b>	<p>Amend the Proposed Millbrook Structure Plan to align with the submission and the recommendations of Anne Steven, Registered Landscape Architect, outlined within Attachment 1, including the following relief:</p> <p>i. R14, R15 and R16 Blocks of Residential units are not located on the elevated plateau land form and are not visible from Lot 1 and Lot 2;</p> <p>ii. R13, R17 and R18 are removed from the scarp;</p> <p>iii. The Landscape Area on the Proposed Millbrook Structure Plan is adjusted to include all the areas important for natural and pastoral character, landform values and natural open skylines/ridgelines.</p> <p>iv. The area identified for Golf course and Open Space on the Proposed Millbrook Structure is removed from the upper landforms of the plateau. Land use that aligns with the open pastoral character of this landform is suitable.</p> <p>v. Ecological restoration especially of wetlands and gully areas;</p> <p>vi. Maintenance of the open pastoral and arable land use visible from Lot 1 and Lot 2, and the avoidance of any domestic landscaping;</p> <p>vii. Removing planting along the boundary separating Lot 1 and Lot 2 from Dalgleish Farm, as this creates a linear element that is not fitting with the undulating landscape.</p>

<b>Point Number</b>	357.1	<b>Provision:</b>	7-Part Seven - Maps > 7.39-Map 36 - Queenstown Central
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	<p>I submit that should an 'Entertainment Zone' be implemented then that area encompass/ incorporate areas such as the Village Green and Earnslaw Park and associated buildings surrounding that. There are always a number of events / concerts etc on these parks (including QLDC run events) so to exclude such areas would seem ridiculous. I recommend the minimum QLDC should be looking at is as follows The eastern boundary of this zone should be Stanley Street, the North/West , Shotover street down to and including the Steamer Wharf precinct, to the south including Church Street. This area would more reflect the actual Entertainment Area of downtown Queenstown in 2015. The proposed noise limit of 60dbls is also too restrictive for such a zone and 65 - 70dbls a more realistic limit. We could, from there, encourage this entertainment type industry to locate within a reasonable area into the future. The downtown area of Queenstown needs to remain an essentially vibrant and energetic part of town to attract locals and visitors alike.</p>

**Summary of Submission**

Re-instatement of the avenue of Spruce trees as a protected feature in Part 5, Section 32.8 – Schedule of Protected Trees - District Wide.

This avenue of spruce trees is listed in Appendix 3 to the Operative District Plan under the Inventory of Protected Features, Arrowtown and Environs, Heritage Trees, Ref. no. 275 and Map ref 26. The avenue is an integral part of the historic setting of the Ayreburn homestead and is a key heritage feature in the Wakatipu Basin. The avenue is unique to the Queenstown Lakes District. We understand the spruce trees are over 100 years old. There is no other avenue of spruce trees in the Wakatipu Basin or in the District. We consider the avenue is a unique heritage and botanical feature nationally.

**Summary of Submission** Amend the wording of 33.1 Purpose (paragraph 4) as follows:

*The limited removal of indigenous vegetation not determined to be significant is permitted, with discretion applied through the resource consent process to ensure that indigenous vegetation clearance activities exceeding the permitted limits protect, maintain or enhance indigenous biodiversity values. Where the removal of indigenous vegetation cannot be avoided or mitigated and would diminish the District's indigenous biodiversity values, opportunities for the enhancement of other areas are encouraged to offset the adverse effects of the loss of those indigenous biodiversity values.*

Where indigenous vegetation in an area described as a Significant Natural Area in the district plan, or is determined to be an Significant Natural Area through a site specific ecological assessment, then any removal of indigenous vegetation required will only be allowed in exceptional circumstances, and where through a resource consent process the adverse effects of the activity are demonstrated as being avoided, remedied or mitigated. Biodiversity off-sets will be required to manage any residual adverse effects that cannot otherwise be mitigated.

Or wording of a similar effect.

**Summary of Submission** Support in part for Policy 33.2.1.2.

It is recommended that this policy is moved and combined with policies under Objective 33.2.2. The presence of threatened species either nationally or at a district level is generally a factor in determining a site to be significant under the significance criteria (refer to policy 33.2.1.9b). Therefore it is recommended to replace this policy with a new policy that refers to

the criteria for determining ecological significance in line with that detailed in Policy 33.2.1.9 as well as the list of threatened species in section 33.7

**Position:** Oppose

**Summary of Submission** Policy 33.2.1.5 is opposed.  
As the rules that give effect to these policies apply to all zones in the district it is unclear why a policy specific to rural land uses is required.  
The adverse effects of any indigenous vegetation clearance may be balanced against the benefits of a land use activity as a matter of course in making a decision under section 104 RMA. Given that, this policy adds no further value and is not reflected in the rules for this chapter.

<b>Summary of Submission</b>	Within the Rural zone farmers should be able to carry out reasonable levels of earthworks as a permitted activity. The Rural provisions that affect farms should not be complex and require input in from Landscape planners who add unnecessary cost into a business. The more complex you make the rules in the more the farming community will want detail landscape Zone done,		
	The detail Zone boundaries and maps required between ONL and RLC as many farmers would argue that only parts of their farms may fall into ONL not blanket areas this may cause the plan to get bogged down.

<b>Summary of Submission</b>	Oppose overall approach in Chapter 34. Contend that the spread of wilding forests is not an environmental problem but a land management issue with potential economic and environmental benefits if managed intelligently. We would like our council to take a more holistic and sustainable approach recognising that these tree species are now an established		

part of our wild ecosystem and also part of our cultural heritage. Thus the council must ensure that there are no barriers to the development of a sustainable industry using these forest resources.

<b>Summary of Submission</b>	The council should consult with landowners before giving trees in the Arrowtown Residential Historic Management Zone protection under the category 'character trees'. The council needs to recognise that in some instances there are trees which are in inappropriate locations and discussion with landowners will highlight these. <b>Summary of</b>	I seek to have the western portion of land parcel Lot 2 DP 436345, north of Hawea Cemetery		

**Submission** Reserve, and west of 'Gladstone Gap', correctly mapped as Rural Landscape. This is consistent with the assessment of Anne Steven & Marion Reed, the Environment Court in RMA 0898/03 and the nature, use and visual amenity of the land. I'm not proposing the entire area of land (Lot 2 DP 436345) be classified as Rural Landscape but I do believe based on the past evaluation decisions that the land directly east of Muir Road (and Lake Hawea township QLDC services) be correctly classified as Rural Landscape (given that Visual Amenity Landscape is being removed from Rural Chapter). The logical start of the ONL classification would be the area known as 'Gladstone Gap' where it would join the ONL landscape line as proposed along the moraine. This is also a logical transition from Township residential zoning to Rural Landscapes. The ONL line submitted by Anne Steven and peer reviewed agreed with by Marion Reed is very close to what has been assessed by Resource Consents and the Environment Court. I have attached a copy of this map along with supporting documentation.

<b>Summary of Submission</b>	That all cases where the words 'established meaning a Building Code of Compliance Certificate has been issued' are removed Support the rule in general but the wording '(established meaning a Building Code of Compliance Certificate has been issued)' be removed. Code of compliance certificates have only been in effect since July 1992. Residential Units constructed earlier will have established residential use but will not have a CCC, others built after July 1992 may only have a certificate of acceptance when consenting authorities were closed down due to not being able to obtain insurance.

Support 16.5.1.1 - Recession line 35deg.

Support 16.5.1.2 - 3m setback.

Support 16.5.4 - 75%max coverage.

Support 16.5.7.1(a) - 12m height limit.

Support 16.4.2 - Buildings should be Restricted Discretionary Activity.

Oppose 16.4.4 - Visitor Accommodation as it is not consistent with the aim of increasing

worker accommodation stock near the town centre.

Oppose 16.5.7.1(b) - 20m height should only be allowed on the eastern side of Gorge Road.

Oppose 16.6.2 - buildings over 12m should be notified, unless on eastern side of Gorge Road.

Oppose 16.6.3 - residential neighbours should be contacted if breaches in setback or sunlight access are more than minor.

Maximum 12m building height when adjacent to residential.

Allow 20-25m on eastern side of Gorge Road at very rear. Heights staggered down to 12m at street front to preserve some 'openness' to the street.

Landscaping of 2m (for example) at street front to soften the appearance of tall buildings on either side.

**Summary of Submission** Neutral / advice.

Heritage New Zealand's policy guidance recommends discretionary activity status for the subdivision of land containing a scheduled heritage item (including scheduled archaeological sites). Heritage New Zealand does not usually seek that this same level of subdivision control be applied to all land containing a known archaeological site, as many archaeological sites will not be of sufficient archaeological heritage value to merit such regulation where there are no other consent triggers.

Heritage New Zealand's interpretation of the subdivision provisions is that all subdivision activities require resource consent and accordingly the presence of an archaeological site would not, in itself, trigger a requirement for resource consent. In this context Heritage New Zealand is comfortable that the provision 27.5.1.6 is not unduly onerous.

**Point Number** 430.3 **Provision:** 57-3Strategic Direction > 59-3.2Goals, Objectives and Policies

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** AFE generally SUPPORTS the goals, objectives and policies in Chapter 3.2, but seeks modifications as follows:

*Objective 3.2.1.4 Recognise the potential for rural areas to diversify their land use beyond the strong productive value of **traditional rural activities including** farming, provided a sensitive approach is taken to rural amenity, landscape character, healthy ecosystems, and Ngai Tahu values, rights and interests.*

*Objective 3.2.5.2 Minimise the adverse landscape effects of subdivision, use or development in specified Rural Landscapes. **Recognise the landscape character and visual amenity values of the Rural Landscapes and manage the adverse effects of subdivision, use and development on these values.***

*Policies 3.2.5.2.1 Identify the district's Rural Landscapes Classification on the district plan maps, and minimise the effects of subdivision, use and development on these landscapes.*

*3.2.5.2.2 Avoid, remedy or mitigate the adverse effects of subdivision, use and development within Rural Landscapes.*

*Objective 3.2.5.4 Recognise there is a finite capacity for residential activity in rural areas if the qualities of ~~our~~ the landscape are to be maintained.*

*Objective 3.2.5.5 Recognise that agricultural land use and other activities that rely on rural resources is are fundamental to the character of ~~our~~ the landscapes.*

*Policies 3.2.5.5.1 Give preference to farming activity and other activities that rely on rural resources in rural areas except where it conflicts with significant nature conservation values.*

***3.2.5.5.2** Recognise that the retention of the character of rural areas is often dependent on the ongoing viability of **activities that rely on rural resources and** farming and that evolving forms of agricultural **and other** land uses which may change the landscape are anticipated.*

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** OPPOSES the goals, objectives and policies in Chapter 3.2, and seeks modifications as follows:

*6.2 Values .... "It is realised that rural ~~lifestyle~~ living development has a finite capacity if the District's distinctive rural landscape values are to be sustained.  
However, rural living can be enabled in certain locations if landscape character and visual amenity values are not unduly compromised.*

---

**Point Number** 430.5 **Provision:** 81-6 Landscape > 84-6.3 Objectives and Policies > 85-6.3.1 Objective 1

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** OPPOSES Objective 6.3.1 and Policies 6.3.1.1 – 6.3.1.4, and seeks the following modifications:

*6.3.1 Objective The District contains and values Outstanding Natural Features, and Outstanding Natural Landscapes, and Rural Landscapes that require protection from inappropriate subdivision and development and Rural Landscapes where the adverse effects of subdivision and development are appropriately managed.*

*6.3.1.2 Classify the Rural Zoned landscapes in the District as:*

- Outstanding Natural Feature (ONF)
- Outstanding Natural Landscape (ONL)
- Rural Landscape ~~Classification~~ (RLG)

*6.3.1.3 That subdivision and development proposals located within the Outstanding Natural Landscape, or an Outstanding Natural Feature, be assessed against the assessment matters in provisions 21.7.4 and 21.7.3 because subdivision and development is are inappropriate in almost all most locations, meaning successful applications will be exceptional cases.*

*6.3.1.4 Delete and replace with: That subdivision and development proposals within the Rural Landscapes are located and designed in such a manner that adverse effects on landscape character and Replacement Submission visual amenity values are avoided, remedied or mitigated.*

**Point Number** 430.6 **Provision:** 81-6 Landscape > 84-6.3 Objectives and Policies > 98-6.3.2 Objective 2

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** OPPOSES Objective 6.3.2 and Policies 6.3.2.1 – 6.3.2.5, and seeks the following modifications:

*6.3.2 Objective Avoid, remedy or mitigate adverse cumulative effects on landscape character and amenity values caused by incremental subdivision and development.*

*6.3.2.2 Allow residential subdivision and development only in locations where the District's landscape character and visual amenity would not be ~~degraded~~ significantly adversely affected, recognising that there are parts of the rural areas that can absorb rural living development provided that the potential adverse effects on the landscape character and visual amenity values are properly considered when determining applications.*

*6.3.2.3 Recognise that proposals for residential subdivision or development in the Rural Zone that seek support from existing and consented subdivision or development have potential for adverse cumulative effects. ~~Particularly where the subdivision and development would constitute sprawl along roads.~~*

*6.3.2.4 Have particular regard to the potential adverse effects on landscape character and visual amenity values ~~from infill within areas with existing rural lifestyle development~~ or where further subdivision and development would constitute sprawl along roads.*

 21.2.1.6 Avoid, mitigate, remedy or off-set adverse cumulative impacts on ecosystem services and nature conservation values.

**Point Number** 430.10 **Provision:** 1182-27 Subdivision and Development > 1249-27.4 Rules - Subdivision > 1250-27.4.1 Discretionary activities

**Position:** Oppose

**Summary of Submission** Opposes the discretionary status of subdivision in the Rural Residential and Rural Lifestyle Zones and seeks that the status is controlled.

**Point Number** 430.11 **Provision:** 7-Part Seven - Maps > 7.28-Map 26 - Speargrass Flat, Millbrook

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** seeks the extension of either:

(i) The Rural Residential Zone north of Lake Hayes (excluding the increased setback rule specific to this zone); OR, in the alternative:  
 (ii) The Resort - Waterfall Park Special Zone; OR, in the alternative:  
 (iii) A site specific Ayrburn Zone, similar to the site specific Waterfall Park zone

As part of the two alternative reliefs seeking an extension of the Waterfall Park Special Zone or a site specific Ayrburn Zone, it is requested that the Arrowtown Urban Growth Boundary ("UGB") be amended by removing the short section of UGB located between Millbrook and Meadow Park/Feeley Hill and extending the Arrowtown UGB so that it encompasses all of the Millbrook Resort Zone, the Waterfall Park Resort Zone, and the new Ayrburn Residential Zone (if applicable) within the Arrowtown UGB.

**Point Number** 430.14 **Provision:** 26-42 Waterfall Park Zone

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** For the the Waterfall Park zoning extension option proposed by the submitter, the following amendments or inclusions to the Proposed District Plan are requested:

- Expansion of the Structure Plan, and inclusion of the Ayrburn property in the "R" (residential) category of that structure plan, and to include a Concept Development Plan (as shown on Figure 4 of submission 430)
- that Rule 42.5.2 (residential capacity standard) is modified to enable additional residential units as a result of the expansion of the Structure Plan. The modification is:  
*42.5.2 Residential Capacity*  
*In the Waterfall Park Zone the maximum number of residential units shall be limited to ~~400~~ 225, with 125 units allowed in the southern "R" area on the Structure Plan*
- seeks inclusion in the Waterfall Park Special Zone of the standards set out in Part 3.6.1(c) of submission 430 relating to Density, Building Height, Building Location, Design Standards and Landscaping (appropriately adapted to the Waterfall Park zone provisions).
- Provisions requiring retention and adaptive reuse of the historic buildings on the site should be included.

The inclusions sought are outlined in section 3.6.1 of submission 430.

**Point Number** 430.15 **Provision:** 7-Part Six - Special Zones

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Relating to the proposed rezoning options, the submitter seeks that the land be rezoned to an Ayrburn residential zone, with appropriate controls as follows:

(a) A Concept Development Plan, being the same or similar to that shown in Figure 4, attached to submission 430

(b) Limitations to 125 residential units, to avoid adverse effects on traffic and reticulated services;

(c) Limitations on the location of development and inclusion of buffer areas for screen planting, taking into account the visibility from surrounding roads and the visibility from and amenities of surrounding residential properties;

(d) Avoidance of development on the highly visible slopes;

(e) Height restrictions to avoid undue effects of visibility when viewed from outside the property.

(f) Provisions requiring retention and adaptive reuse of the historic buildings on the site should be included.

Insert three new policies to give effect to Objective 3.2.1.5 as follows:

**Policy 3.2.1.5.1**

Recognise that infrastructure, including the district's airports, makes an essential contribution to the prosperity and economic resilience of the District.

**Policy 3.2.1.5.2**

Ensure that the efficient and effective operation of infrastructure, including the districts airports, is safeguarded and not compromised, now or in the future, by incompatible development.

**Policy 3.2.1.5.3**

To recognise that Queenstown Airport is an essential lifeline utility.

**3.2.8 Goal –Provide for the ongoing operation and growth of regionally significant infrastructure**

**Objective 3.2.8.1**

Recognise that the functional or operational requirements of regionally or nationally significant infrastructure can necessitate a particular location.

**Policy 3.2.8.1.1**

Enable the continued operation, maintenance and upgrading of regionally and nationally significant infrastructure and associated activities.

**Policy 3.2.8.1.2**

Where practicable, mitigate the impacts of regionally and nationally significant infrastructure on outstanding natural landscapes and outstanding natural features.

**Point Number** 433.40 **Provision:** 11-4 Urban Development

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Insert the following text into the Purpose section of Chapter 4:

Queenstown Airport is a significant asset to the region. It provides a transportation hub for residents, visitors and business travellers and offers both domestic and international scheduled flights. The Airport also facilitates and supports a number of local tourist and aviation related businesses.

The Airport has been established at its current location in Queenstown since 1936. Since then the Airport has faced pressure from urban development. It is essential that such development is managed in a way that protects the current and future ability of the Airport to operate efficiently. It is also reasonable that noise boundaries are established for aircraft operations at the Airport in order to appropriately mitigate adverse effects on any Activity Sensitive to Aircraft Noise in the surrounding environment.

Being within the township of Frankton, Queenstown Airport has some existing residential neighbours. It is recognised that the anticipated growth in operations at Queenstown Airport will necessitate sound insulation and mechanical ventilation works to Critical Listening Environments within some existing, new or altered buildings in order to mitigate the effects of aircraft noise.

Queenstown Airport Corporation Limited will undertake regular monitoring to ensure that the owners or occupiers of existing buildings containing an Activity Sensitive to Aircraft Noise within the Projected 65 and 60 dB AANC are offered appropriate noise mitigation in accordance with Designation 2.

The noise boundaries are also necessary to ensure new noise sensitive development does not occur in inappropriate locations, and new and alterations and additions to existing buildings are designed to achieve the Indoor Design Sound Level.

Reverse sensitivity effects on Queenstown Airport may arise where Activity Sensitive to Aircraft Noise are established within the Airport's Air Noise Boundary or Outer Control Boundary.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend Policy 4.2.2.4 as follows:

**Policy 4.2.2.4**

Not all land within the Urban Growth Boundaries will be suitable for urban development or intensification, such as (but not limited to) land with ecological, heritage or landscape significant; or land subject to natural hazards or within close proximity to airports. The form and allocation of urban development shall take account of site specific features or constraints to protect public health and safety.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Amend the policy as follows to create two separated policies:

**Policy 4.2.4.3**

*Within existing residential zones, protect Queenstown Airport from reverse sensitivity effects, and maintain residential amenity through managing the effects of aircraft noise within critical listening environments of new or altered buildings within the Air Noise Boundary or Outer Control Boundary.*

And:

**Policy 4.2.4.3**

*Within Rural and Industrial Zones, protect Queenstown Airport from reverse sensitivity effects through preventing the establishment of new activities sensitive to aircraft noise within.*

---

**Point Number** 433.45 **Provision:** 11-4 Urban Development > 13-4.2 Objectives and Policies > 37-4.2.4 Objective 4 > 41-4.2.4.4

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Retain the policy, however relocate it to sit alongside the new objectives and policies that are sought by QAC, as detailed below.

Insert the following new objectives and policies into the Proposed Plan:

**Objective 4.2.X**

*Manage urban growth issues on land in proximity to Queenstown Airport to ensure that the operational capacity and integrity of the Airport is not significantly compromised now or in the*

future.

**Policy 4.2.X.1**

To protect the airport from reverse sensitivity effects of Activity-Sensitive to Aircraft Noise.

**Policy 4.2.X.2**

To prohibit all new Activity Sensitive to Aircraft Noise within the Rural, and Industrial Zones located within the Outer Control Boundary at Queenstown Airport and to limit such uses in the Frankton Flats (A) Zone.

**Policy 4.2.X.3**

To prohibit all Residential, Visitor Accommodation and Community Activities within that part of the Remarkables Park Zone within the 2037 60dB Noise Contour at Queenstown Airport.

**Policy 4.2.X.4**

To ensure that Critical Listening Environments of all new and alterations and additions to existing buildings containing Residential, Educational Facilities and Visitor Accommodation in the Remarkables Park Zone in the areas identified in Figure 2 – Airport Measures in the District Planning Maps achieve an Indoor Design Sound Level of 40 dB Ldn, based on the 2037 Noise Contours.

**Policy 4.2.X.5**

To ensure that any Critical Listening Environments of all new and alterations and additions to existing buildings containing an Activity Sensitive to Aircraft Noise located in the existing Residential zones, and the Frankton Flats (A) Zone within the Queenstown Airport Outer Control Boundary are designed and built to achieve an Indoor Design Sound Level of 40 dB Ldn, based on the 2037 Noise Contours.

**Objective 4.2.X**

Maintain and promote the efficient operation of Queenstown Airport and set appropriate noise limits in order to protect airport operations and to manage the adverse effects of aircraft noise on any Activity Sensitive to Aircraft Noise.

**Policies 4.2.X.1**

To ensure appropriate noise boundaries are established and maintained to enable operations at Queenstown Airport to continue and to expand over time.

**Policy 4.2.X.2**

To manage the adverse effects of noise from aircraft on any Activity Sensitive to Aircraft Noise within the airport noise boundaries whilst at the same time providing for the efficient operation of Queenstown Airport.

**Policy 4.2.X.2**

To manage the adverse effects of noise from Queenstown Airport by conditions in Designation 2 including a requirement for a Noise Management Plan and a Queenstown Airport Liaison Committee.

**Summary of Submission**

Requests that Council amend the proposed Plan to adequately recognise and provide for the operational requirements of the Commission and the associated infrastructure in a way that enables the safety and wellbeing of Queenstown as set out in this submission and specifically set out in Attachment 1.

The core areas of the Proposed Plan which the Commission requests amendments to are:

- The NZFS Fire Fighting Water Supplies Code of Practice SNZ PAS 4509:2008 (Code of Practice) should be included within the District Plan to ensure that an adequate water supply is available if there is a fire attended by NZFS;
- Certain standards proposed may restrict the NZFS towers which it requires at fire stations. The NZFS towers should be exempt from the standards; Emergency services should be expressly enabled and provided for throughout the urban environment including in residential areas;

- The efficient operation of emergency services within the district should be added as a strategic direction; and

- fire stations should be exempt from gross floor area and hard standing area standards, as the specific operational requirements of fire stations means that they will not be able to meet these standards.

(b) Location of internal lot boundaries  
(c) Access to the zone to be provided from the main entrance to The Hills golf course  
(d) Provision of a Landscape Management Plan which details landscape treatment and management within the Landscape Amenity Management Area, and includes the following:  
(i) A planting layout plan for the Landscape Amenity Management Area, which includes species and densities of tussocks and naturalised groups of exotic and indigenous trees and shrubs and mowed grass. The purpose of the planting layout shown in the plan is to create a predominately open character;  
(ii) Timeframes and sequencing of works;  
  
(iii) Details of the proposed maintenance programme to ensure a survival rate of at least 90% within the first 5 years.  
(e) Registration of a consent notice which requires the Landscape Amenity Management Area to be established and maintained by the subdividing owner and/or subsequent owners of any individual allotment on a continuing basis.

**Summary of Submission** The submitters property at Loch Linnhe Station located south of Wye Creek and Drift Bay, and east of Lake Wakatipu with access off Kingston Road. This land is shown on Proposed Planning Map 13.

Requests that the PDP should provide for areas within large farm (say over 1000 hectares in area) where the erection of homesteads, staff accommodation and farm buildings are a permitted or controlled activity. States that the PDP is disenabling of this, as residential activity on a large rural property is treated exactly the same as a residential activity on a small landholding in the Wakatipu Basin.

Requests the following:

- (i) The concept of a Farm Base Area (FBA's be included in the Queenstown-Lakes PDP;
- (ii) That FBA's be identified on large rural property in excess of 1000 hectares in area;
- (iii) That within FBA's, homesteads, staff accommodation and farm buildings be a permitted or controlled activity;
- (iv) That two FBA's be identified on our property as shown on the plans attached to this submission;
- (v) If (i) to (iv) above is not accepted, then we seek Rural Visitor zoning over the two areas we identify as being suitable FBA's consistent with other stations in the district.
- (vi) Any other consequential amendments required to give effect to this submission.

Suggested Rules

Permitted Activity Standards for Relocated Buildings

i. Any relocated building intended for use as a dwelling (excluding previously used garages and accessory buildings) must have previously been designed, built and used as a dwelling.

ii. A building pre-inspection report shall accompany the application for a building consent for the destination site. That report is to identify all reinstatement works that are to be completed to the exterior of the building.

iii. The building shall be located on permanent foundations approved by building consent, no later than 2 months of the building being moved to the site.

iv. All other reinstatement work required by the building inspection report and the building consent to reinstate the exterior of any relocated dwelling shall be completed within 12 months of the building being delivered to the site. Without limiting (iii) (above) reinstatement work is to include connections to all infrastructure services and closing in and ventilation of the foundations.

v. The proposed owner of the relocated building must certify to the Council that the reinstatement work will be completed within the 12 month period.

- A suggested pre-inspection report (as a non-statutory form)- as attached to the original submission as Schedule 2- Suggested Pre-Inspection Report

- Expressly provide in the proposed plan (whether in the definitions or in the activity rules) for the demolition and removal and re-siting of buildings as a permitted activity in all areas and zones, except in relation to any scheduled identified heritage buildings, or any properly established conservation heritage precinct.

**Summary of Submission** I could find no explanation of "low scale" commercial activity. It already has been demonstrated that one developer has built a function centre, and are advertising as catering for larger numbers, within a low density area and have blatantly had total disregard to those residents living in the noise -carrying area as to how this impacts on their current lifestyle. To allow more commercial activity would further compromise the existing residents and their investment within this area. <b>Summary of Submission</b>	To contemplate 1 x residential unit per 250 sq.m.(with 45% coverage) or obtaining a Homestar certification which allows a no density limit, and to make the process for 3 or less residential units per site not requiring resource consent, opens a door for some developers to compromise the whole area for their gain and not the betterment of Wanaka. What provision will be made regarding parking as each visitor accommodation unit could attract 2-3 cars per unit. Wanaka streets are not wide enough to safely carry parked cars on both sides as well as two way traffic which then becomes a safety issue.

**Position:** Not Stated

**Summary of Submission** Amend 26.12.7 Glenorchy as follows:

The Glenorchy Heritage Landscape (GHL) is significant for its specific scheelite mining activities that extended from the 1880's until the 1980's which have left a significant group of mine sites and infrastructure, along with a that have produced a sequence of mining evidence that follows the mining cycle which began here in the 1880's and will continue to exist onto the future. These activities have produced a complex of sites along with a unique social history of the people who worked there. They in turn, represent the hard won and sometimes fruitless endeavours of a close knit community of miners that spanned a hundred years of mining at Glenorchy and continues to this day. The GHL encompasses the majority of historic mining locations, tracks, cableway and sections of water races that represented a primary scheelite producing area in New Zealand. The combination of private and state-owned mines is also a unique part of the GHL's history in the ubiquitous and contemporary mining industry within the Queenstown Lakes District. Overall, the scheelite mining symbolised by the GHL is of national heritage significance.

It is recognised in this area that the GHL retains potential for exploration and mining, and it is appropriate to enable mining in such cases.

**Position:** Not Stated

**Summary of Submission** Jacks Point, Homestead Bay and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP as a) Jacks Point deserves its own specific zone with associated objectives, policies and methods; b) neither Hanley Downs or Homestead Bay will have covenants or other legislative methods and controls placed upon the development (individual lots, streetscapes, reserves and open space) in these zones to the same degree that have been applied to Jacks Point, and as such the development outcome in these zones will appear vastly different to Jacks Point; c) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development; and d) the unique and special character of Jacks Point should be preserved and enhanced and we do not consider that the PDP creates a framework capable of achieving this.

<b>Point Number</b> 552.1	<b>Provision:</b> 54-2Definitions
---------------------------	-----------------------------------

**Position:** Not Stated

**Summary of Submission** Supports in part, the definition of Visitor Accommodation in the PDP, subject to amending it as follows:

Adding the following sentence to part (ii) of the decision: "For avoidance of doubt, the centralised services or facilities can be used by persons not staying overnight on the site, provided that the primary role of the facility is that of providing visitor accommodation to paying guests"; and

Adding a new part c) as follows: "Where the provisions above are otherwise altered by Zone Rules, the Zone Rules shall apply. It is submitted that the definition of Visitor Accommodation which requires centralised services or facilities to be 'associated' with the visitor accommodation activity is ambiguous and difficult to interpret."

AND such further or consequential or alternative amendments necessary to give effect to this submission

This will eliminate the ambiguity around the requirement for centralised services or facilities to be 'associated' with the visitor accommodation activity.

**Point Number** 576.1 **Provision:** 287-41 Jacks Point Zone

**Position:** Oppose

**Summary of Submission** Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same

strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** With the exception / incorporation of points raised in this submission in support of the proposed District Plan, reinstate the Operative District Plan Structure Plan for the Jacks Point portion of the Jacks Point Special Zone. The current structure plan should remain operational and unchanged with the relevant land use and activity areas remaining as they are. All the areas within Jacks Point zoned as G and G/F on Figure 1, including the areas owned by the Jacks Point Residents and Owners Association and Lot 12 DP 364700 should remain as per the existing structure plan.

---

**Point Number** 576.4 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Specifically retain the following rule: "*(a) Zone F: Recreation Activities - the use of the area is restricted to recreation activities*" and that there be no residential and/ or commercial subdivision and development in this area.

---

**Point Number** 576.7 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** With the exception / incorporation of points raised in support of the proposed District Plan in this submission, reinstate the Operative District Plan rules as they relate to the Jacks Point portion of the Jacks Point Special Zone, noting that the proposed rules are not prescriptive enough to ensure a high quality of landscape and visual amenity and urban design consistent with the receiving environment of Jacks Point.

---

**Point Number** 576.8 **Provision:** 287-41 Jacks Point Zone

**Position:** Oppose

**Summary of Submission** Support separating the areas within the Jacks Point Zone from the Millbrook and Waterfall Park Zone, as they are different from each other and do not share a sufficient number of common attributes to be considered together.

---

**Point Number** 576.9 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 327-41.4.1

**Position:** Support

**Summary of Submission** Support removing the requirement for controlled resource consent within Jacks Point when applying to construct a residential property, as due to the covenants on each residential title, this is already rigorously and successfully controlled to a high built and landscape standard consistent with the vision and ethos of Jacks Point.

---

**Point Number** 576.10 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9

**Position:** Support

**Summary of Submission** Within the proposed framework we support changes in order to allow the village area to develop in a manner which is commercially viable in order to support the community it services at an appropriate scale and design.

---

**Point Number** 576.11 **Provision:** 287-41 Jacks Point Zone > 288-41.1 Zone Purpose

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Support a range of housing needs being provided within the district and we agree that there is the ability to absorb this housing in the overall Jacks Point Zone, providing this development is controlled to be sympathetic to the environment. However the proposed provisions do not sufficiently achieve this.

---

**Point Number** 576.12 **Provision:** 287-41 Jacks Point Zone > 288-41.1 Zone Purpose

**Position:** Not Stated

**Summary of Submission** Address the financial burden of granting access to Hanley Downs and Homestead Bay through Jacks Point roading infrastructure, and the additional burden on the trail networks and other areas funded exclusively by the Jacks Point residents.

---

**Point Number** 576.13 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities

**Position:** Not Stated

**Summary of Submission** Add a district plan rule that specifically refers to an assessment of effects on neighbouring properties / neighbourhoods of proposed resource consent applications, plan changes etc, because if the original Jacks Point vision becomes compromised (i.e increased residential density over and above what is anticipated) there needs to be a framework within the proposed district plan for the existing residents to be appropriately considered.

---

**Point Number** 576.14 **Provision:** 287-41 Jacks Point Zone > 375-41.5 Rules - Standards

**Position:** Not Stated

<b>Point Number</b>	582.1	<b>Provision:</b>	287-41 Jacks Point Zone
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.		
<b>Point Number</b>	582.2	<b>Provision:</b>	287-41 Jacks Point Zone > 289-41.2 Objectives and Policies > 290-41.2.1 Objective 1
<b>Position:</b>	Not Stated		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in this submission in support of the proposed District Plan, reinstate the Operative District Plan objectives and policies of the Jacks Point portion of the Jacks Point Special Zone, with the policies established through the Plan Change 44 process applied to Hanley Downs only.		
<b>Point Number</b>	582.3	<b>Provision:</b>	287-41 Jacks Point Zone > 456-41.7 Structure Plan
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in this submission in support of the proposed District Plan, reinstate the Operative District Plan Structure Plan for the Jacks Point portion of the Jacks Point Special Zone. The current structure plan should remain operational and unchanged with the relevant land use and activity areas remaining as they are. All the areas within Jacks Point zoned as G and G/F on Figure 1, including the areas owned by the Jacks Point Residents and Owners Association and Lot 12 DP 364700 should remain as per the existing structure plan.		
<b>Point Number</b>	582.4	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Specifically retain the following rule: <i>"(a) Zone F: Recreation Activities - the use of the area is restricted to recreation activities"</i> and that there be no residential and/ or commercial subdivision and development in this area.		
<b>Point Number</b>	582.5	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		

<b>Summary of Submission</b>	Specifically retain the following rule: " <i>(b) Zone G: Golf Course and Open Space - the use of the area is restricted to outdoor recreation activities and open space</i> " and that there be no residential and/ or commercial subdivision and development in this area.		
<b>Point Number</b>	582.6	<b>Provision:</b>	287-41 Jacks Point Zone > 375-41.5 Rules - Standards > 424-41.5.12
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Specifically retain the following rule imposing a maximum building height of 4 m in Areas G and G/F including areas owned by the JPROA and Lot 12 DP 364700.		
<b>Point Number</b>	582.7	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in support of the proposed District Plan in this submission, reinstate the Operative District Plan rules as they relate to the Jacks Point portion of the Jacks Point Special Zone, noting that the proposed rules are not prescriptive enough to ensure a high quality of landscape and visual amenity and urban design consistent with the receiving environment of Jacks Point.		
<b>Point Number</b>	582.8	<b>Provision:</b>	287-41 Jacks Point Zone
<b>Position:</b>	Support		
<b>Summary of Submission</b>	Support separating the areas within the Jacks Point Zone from the Millbrook and Waterfall Park Zone, as they are different from each other and do not share a sufficient number of common attributes to be considered together.		
<b>Point Number</b>	582.9	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 327-41.4.1
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Support removing the requirement for controlled resource consent within Jacks Point when applying to construct a residential property, as due to the covenants on each residential title, this is already rigorously and successfully controlled to a high built and landscape standard consistent with the vision and ethos of Jacks Point.		
<b>Point Number</b>	582.10	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9

**Point Number** 582.11 **Provision:** 287-41 Jacks Point Zone > 288-41.1 Zone Purpose

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Support a range of housing needs being provided within the district and we agree that there is the ability to absorb this housing in the overall Jacks Point Zone, providing this development is controlled to be sympathetic to the environment. However the proposed provisions do not sufficiently achieve this.

---

**Point Number** 582.12 **Provision:** 287-41 Jacks Point Zone > 288-41.1 Zone Purpose

Amend Policy 4.2.4.2 as follows:

Ensure that development within the Queenstown Urban Growth Boundary:

- Provides a diverse supply of residential development to cater for the needs of residents and visitors
- Provides increased density in locations close to key public transport routes and with convenient access to the Queenstown Town Centre
- Provides an urban form that is sympathetic to the natural setting and enhances the quality of the built environment
- Provides infill development as a means to address future housing demand
- Provides a range of urban land uses that cater for the foreseeable needs of the community

Maximises the efficiency of existing infrastructure networks and ~~avoids expansion~~ provides opportunities for expansion of such networks required for future of networks before it is needed for urban development

- Supports the coordinated planning for transport, public open space, walkways and cycleways and community facilities
- Does not diminish the qualities of significant landscape features

Amend Policy 4.2.6.2 as follows:

Ensure that development within the Wanaka Urban Growth Boundary:

- Supports increased density through greenfield and infill development, in appropriate locations, to avoid sprawling into surrounding rural areas
- Provides a sensitive transition to rural land at the edge of the Urban Growth Boundaries through the use of: appropriate zoning and density controls; setbacks to maintain amenity and open space; and design standards that limit the visual prominence of buildings
- Facilitates a diversity of housing supply to accommodate future growth in permanent residents and visitors
- Maximises the efficiency of existing infrastructure networks and ~~avoids expansion~~ provide opportunities for expansion of such networks required for future of networks before it is needed for urban development
- Supports the coordinated planning for transport, public open space, walkways and cycleways and community facilities
- Does not diminish the qualities of significant landscape features
- Rural land outside of the Urban Growth Boundary is not developed until further investigations indicate that more land is needed to meet demand.

To ensure adequate provision is made for the supply and installation of reticulated energy, including street lighting, and communication facilities for the anticipated land uses while:  
• Providing flexibility to cater for advances in telecommunication and computer media technology, particularly in remote locations;  
• Ensure the method of reticulation is appropriate for the visual amenity values of the area by generally requiring services are placed underground where technically and operationally feasible;  
• Have regard to the design, location and direction of lighting to avoid upward light spill, recognising the night sky as an element that contributes to the District's sense of place;  
• Generally require connections to electricity supply and telecommunications systems to the boundary of the net area of the lot, other than lots for access, roads, utilities and reserves.

Insert New Provision – Critical Electricity Lines – Land Use  
Critical Electricity Lines – Land Use  
NOTE: The following provisions apply district wide in addition to any other provisions in this Plan applicable to the same areas or site. Critical Electricity Lines (CEL's) and substations are the key components of the electricity network in the Queenstown Lakes District. To provide a resilient electricity network the use and development of CEL's and substations must be sustainable, secure and efficient. CEL's and substations can be vulnerable to inappropriate subdivision or building location to the extent that they can restrict access and affect the ability to maintain the CEL's (lines, cables and support structures). Trees planted too close to lines or cables can disrupt supply. CEL's are, or have the potential to be, critical to the quality, reliability and security of electricity supply throughout the district or region. These lines contribute to the social and economic wellbeing and health and safety of the district or region and are lines that:  
• Supply essential public services such as the hospital, civil defence facilities or Lifeline sites;  
or

- Supply large (1MW or more) industrial or commercial electricity consumers; or
  - Supply 1000 or more consumers; or
  - Are difficult to replace with an alternative electricity supply if they are compromised.
- The locations of CEL's and designated substations are identified in the planning maps of the District Plan.

The following activities are permitted activities:

1. Within 10m of a CEL or the designation boundary of a substation:

i. Any building or structure that does not require building consent; or

ii. Alteration of any building that does not exceed outside the envelope or footprint of the existing building; or

iii. Earthworks that:

a. Are not directly above an underground cable(s); and

b. Do not result in a reduction of existing ground clearance distances from overhead lines below the minimums prescribed in the New Zealand Code of Practice 34:2001 (NZECP 34:2001); and

c. Are in accordance with NZECP 34:2001.

2. Within 20m of a CEL or the designated boundary of a substation:

i. Planting of trees other than shelterbelts, production forestry or commercial horticultural operations.

3. Activities that fail to meet the standards in (1) and (2) above, provided that prior to the commencement of any works:

i. Written notification has been provided to the Council; and

ii. The proposed activity is being carried out in accordance with the Electricity Act 1992 and associated regulations (NZECP 34:2001, the Electricity (Hazards from Trees) Regulations 2003 (SR 2003/375), and the Electricity (Safety) Regulations 2010);

OR

3.1 The proposed activity is being carried out by a network utility operator or territorial authority

in accordance with NZECP 34:2001.

Note:

Specified distances from CEL's are to be measured from a point directly below the centreline of

the line or cluster of lines, as shown in the Critical Electricity Line Definition.

Activities that do not meet the requirements for permitted activities, require resource consent as a

restricted discretionary activity. Discretion will be restricted to:

i. the safe and efficient operation and maintenance of the electricity supply network, including:

a. The use, design and location of buildings; and

b. The mature size, growth rate, location, and fall zone of any associated tree planting, including landscape planting and shelterbelts; and

c. Compliance with NZECP 34:2001; and

d. Effects on public health and safety; and

e. Effects on access to CEL's, designated substations and associated infrastructure for maintenance purposes.

**Summary of Submission** Amend Planning Maps 18, 19 and 20 to:

- a) Remove reference to Rural General Zoning (Operative Plan) over the land affected by PC45 and replace with Northlake Special Zone;
- b) Amend the ONF boundary which is shown on Planning Map 18 north of Outlet Road so that it coincides with the Urban Growth Boundary which runs along the northern boundary of the PC45 zone approved by the Environment Court
- c) Extend the ONF boundary referred to above, together with the UGB referred to above, eastwards so that they run parallel to the southern bank of the Clutha River. These amendments will have the following consequences:
  - i. The Hikuwai Conservation Area will be excluded from the Clutha River ONF. This is appropriate, as the Hikuwai Conservation Area does not naturally form part of the Clutha River ONF valley.
  - ii. The Hikuwai Conservation Area will be within the UGB. This is appropriate, as the objectives and policies for UGB anticipate that a UGB may contain areas not suitable for urban development, such as areas with ecological values.
- d) Exclude the land identified as Activity Area A, that is zoned Rural Residential from the relief sought by this submission.

**Point Number** 645.1 **Provision:** 287-41 Jacks Point Zone

<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

---

**Point Number** 645.7 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities

**Position:** Not Stated

**Summary of Submission** With the exception / incorporation of points raised in support of the proposed District Plan in this submission, reinstate the Operative District Plan rules as they relate to the Jacks Point portion of the Jacks Point Special Zone, noting that the proposed rules are not prescriptive enough to ensure a high quality of landscape and visual amenity and urban design consistent with the receiving environment of Jacks Point.

---

**Point Number** 645.8 **Provision:** 287-41 Jacks Point Zone

**Position:** Not Stated

**Summary of Submission** Support separating the areas within the Jacks Point Zone from the Millbrook and Waterfall Park Zone, as they are different from each other and do not share a sufficient number of common attributes to be considered together.

---

**Point Number** 645.9 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 327-41.4.1

**Position:** Not Stated

---

**Point Number** 645.11 **Provision:** 287-41 Jacks Point Zone > 288-41.1 Zone Purpose

**Position:** Not Stated

**Summary of Submission** Support a range of housing needs being provided within the district and we agree that there is the ability to absorb this housing in the overall Jacks Point Zone, providing this development is controlled to be sympathetic to the environment. However the proposed provisions do not sufficiently achieve this.

---

**Point Number** 645.12 **Provision:** 287-41 Jacks Point Zone > 288-41.1 Zone Purpose

**Summary of Submission** Address the financial burden of granting access to Hanley Downs and Homestead Bay through Jacks Point roading infrastructure, and the additional burden on the trail networks and other areas funded exclusively by the Jacks Point residents.

---

**Point Number** 645.13 **Provision:** 287-41 Jacks Point Zone > 326-41.4 Rules – Activities

**Position:** Not Stated

**Summary of Submission** Add a district plan rule that specifically refers to an assessment of effects on neighbouring properties / neighbourhoods of proposed resource consent applications, plan changes etc, because if the original Jacks Point vision becomes compromised (i.e increased residential density over and above what is anticipated) there needs to be a framework within the proposed district plan for the existing residents to be appropriately considered.

<b>Point Number</b>	647.1	<b>Provision:</b>	287-41 Jacks Point Zone
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

<b>Summary of Submission</b>	<p>This proposal should facilitate the development of affordable and appropriate housing/accommodation opportunities for seasonal and lower-paid workers who currently have difficulty finding suitable accommodation in Queenstown and Wanaka. Public Health South has had concerns about overcrowding in worker accommodation and the potential risks this may have on health, especially the transmission of infectious diseases. <b>Summary of Submission</b>	<p>In terms of the health of our waterways, the proposal is supported in part:</p> <p>For the following reasons: The rules applying to Table 2 of the Activities – Rural Zone are not sufficiently adequate to protect our more frequently used water ways (rivers and streams) from pollution because the rules only refer to dairy farming. There are many local examples where livestock enter waterways that are used for recreational purposes and even as drinking water sources. Waterways not benefiting from proper management of livestock in general exhibit degraded biodiversity and water quality unsuitable for the desired activities of our region.</p> <p>The submitter requests to allow the provision but include an additional activity that covers livestock in general and to be applied to the more built-up areas of the rural landscape (e.g. rural residential) and those areas close to urban centres / towns.</p>

<b>Summary of Submission</b>	<p>Support in part: Support the gist of the first paragraph but with amendments to terminology for consistency with this chapter and other parts of the proposed plan and the terminology used in the standards cited. Term “nuisance” only used here is inappropriate in RMA context.</p> <p>The decision required is :</p> <p>In the first sentence delete ‘nuisance and give rise’. In the last sentence, replace ‘duration and timing’ with ‘duration, or timing’.</p> <p>For the following reasons.</p> <p>Term ‘nuisance’ is used with the term ‘adverse effects’. Latter is consistent with RMA terminology whereas the term ‘nuisance’ relates to civil torts. Its ordinary usage is not mentioned in the RMA and the basis for nuisance is not the ‘sustainable management ethos of the RMA. The word ‘and used’ in the phrase ‘duration and timing of noise’ implies it and the preceding terms must be or should be interpreted conjunctively rather than disjunctively of as alternative elements and the ambiguity can be avoided by avoiding the word ‘and.’.</p>

<b>Summary of Submission</b>	<p>Our Submission is: Support the gist of the second paragraph but with amendments to terminology for consistency with this chapter and other parts of the proposed plan and the terminology used in the standards. Reference to ‘noise levels’ in phrase ‘prescription of noise levels’ is inappropriate.</p> <p>The Proposal is supported in part but with the following amendments:</p> <p>Replace ‘noise levels’ with ‘noise limits’. the Proposal, or consequential amendments to this section, as a result of decisions about other parts of the Proposal.

For the following reasons.

In the phrase 'prescription of noise levels' the term 'levels' is wrong as the plan sets 'noise limits' for each zone, not a prescribed 'level' for each zone

**Point Number** 649.6 **Provision:** 245-36 Noise > 246-36.1 Purpose

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission**

Support in part.

Support the gist of the fourth paragraph but with amendments to terminology for consistency with this chapter and other parts of the proposed plan and the terminology used in other statutes. The phrase 'can be controlled through' is inappropriate as the statute is in force and applied.

Recommend the following amendment:

Replace 'can be controlled through' with 'is controlled under'.

Note: The scope of relief sought is intended to include amendments to the like effect arising from consolidation, re-ordering or expansion of like provisions in this section or elsewhere in the Proposal, or consequential amendments to this section, as a result of decisions about other parts of the Proposal.

For the following reasons.

The Civil Aviation Act 1990 provisions for control of aircraft noise have been in effect for many years and it is misleading to imply they 'can' control noise rather than actually do control aircraft noise, in a manner outside Council jurisdiction.

---

**Point Number** 649.7 **Provision:** 245-36 Noise > 247-36.2 Objectives and Policies > 248-36.2.1 Objective 1

**Position:** Support

**Summary of Submission**

Reasonable provisions consistent with sustainable management for the district.

For the following reasons.

Identifies noise as a potential adverse effect on people and communities and a statutory responsibility under RMA for Council to control.

---

**Point Number** 649.8 **Provision:** 245-36 Noise > 249-36.3 Other Provisions > 251-36.3.2 Clarification

**Position:** Support

**Summary of Submission** Support the gist of the clarification and 36.3.2.3 about how noise is to be measured and assessed, including by reference to NZ standards NZS 6801:2008 and NZS6802:2008 and by other New Zealand standards where they have been referenced; 36.3.2.4 prescription of noise standards in tables: 36.3.2.5 exempt activities listed; 36.3.2.6 specific provisions for aircraft noise.

For the following reasons.

Basis for measurement and assessment of noise is latest editions of appropriate New Zealand Standards and tabulation of noise limits in rules is a sensible method of layout. Exemptions for table 1 activities are reasonable.

---

**Point Number** 649.9 **Provision:** 245-36 Noise > 252-36.4 Rules - Activities

**Position:** Support

**Summary of Submission** P status appropriate for the listed activities having regard to the other plan provisions.

Submitter recommends to allow the provision.

---

**Point Number** 649.10 **Provision:** 245-36 Noise > 260-36.5 Rules- Standards

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission** Support the assessment locations specified as 'at any point within the notional boundary' where appropriate and 'at 'any point within' other specified areas. Support the time frames specified for application of noise limits and support the prescription of noise limits using the LAeq(t) descriptor and the specification of 15 minute integration times. Support the additional specification of LAFmax numerical limits at night time. Support numerical noise limits proposed However in 36.5.7.2 night time noise limits have been stated as L10 and Lmax noise limits rather than LAeq(t) and LAFmax noise limits consistent with elsewhere in the table.

Support in part with the following amendment:

In 36.5.7.2 for the time frame 2200h to 0800h replace the unit dBA with dB and replace the descriptor 'L10' with 'LAeq(15min)', and replace 'Lmax' with 'LAFmax'

---

**Point Number** 649.11 **Provision:** 245-36 Noise > 260-36.5 Rules- Standards

**Position:** Not Stated

**Summary of Submission** Support in general specific noise limits for specified activities but with amendments to 36.5.11 Frost fans.

Support in part with the following amendment:

In Rule 36.5.11, replace '85 dB LAFmax' with '55 LAeq(15 min)'.

For the following reasons:

Noise limits for telecommunications appliances, wind farms , audible bird scaring devices, helicopters, fixed wing aircraft, vibration construction noise, commercial motorised craft and Jacks Point state highway noise are reasonable and appropriate levels of protection for people

and communities. However frost fan rule noise limit is inadequate to protect people from adverse noise effects as a district-wide noise rule (notwithstanding the Gibbston Character Zone) . Lmax limit alone fails to account for increased annoyance where there are special audible characteristics present that should be penalised by an adjustment as prescribed in NZS 6802:2008.

<b>Summary of Submission</b>	Support the policy as reasonable and necessary.  For the following reasons. **Position:** Not Stated

**Summary of Submission** Part 1 Definitions Definition 'Notional boundary':

The concept is essential for predominantly rural districts to recognise effects of noise upon people not land *per se* are the issue for noise under RMA, but the term 'facade' is inappropriate.

The submitter supports in part but with the following amendment:

Replace 'the facade' with 'any side'

For the following reason:

Concept is essential for predominantly rural districts to recognise effects of noise upon people not land *per se* are the issue for noise under RMA, but the term 'facade' is inappropriate and inconsistent with the measurement and assessment standards cited for noise which were amended in 1999 to remove the term facade after the Environment Court deemed the term had connotations of "frontage" which were not always inherent in notional boundary and were sometimes contrary to the purpose of the concept as an applied assessment location.

<b>Summary of Submission</b>	See full Submission (670) for details Submission 1: Rural General ZoneThe area defined in the map contained in Attachment [D] is re-zoned from Rural General to a mix of Rural Lifestyle and Rural Visitor Zone.The farm already accommodates recreational and tourism activities (the cycle trail runs through the back of the farm). By rezoning to Rural Lifestyle and Rural Visitor Zone we could conserve the rural character of the land but be in a position to consider new opportunities in the future if the farm can no longer sustain itself economically from Agriculture alone.

<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Add an introduction to the Rural Residential and Rural Lifestyle Zone to include the purpose of the zone for rural residential living with associated rural character and amenity values, as the proposed plan does not describe or recognise the purpose of the RRZ in the manner that the operative plan does.		
<b>Point Number</b>	674.2	<b>Provision:</b>	797-22 Rural Residential and Rural Lifestyle > 799-22.2 Objectives and Policies
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the proposed Objectives and Policies and seek a review of the Objectives and Policies to uphold the purpose and intent of the Rural Residential and Rural Lifestyle Zone, noting that: a) The PDP has an obligation to ensure that the important values of rural character and amenity that differentiate the RRZ from other residential zones are upheld and protected by the Objectives and Policies; b) no Objectives and Policies are included that		

protect the amenity within the rural living zone for residents.

---

<b>Point Number</b>	674.3	<b>Provision:</b>	797-22 Rural Residential and Rural Lifestyle > 842-22.4 Rules - Activities
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose the proposed Rules of the RRZ, which are more permissive than for the same Zone in the Operative Plan and seek that they be reviewed and strengthened in order to uphold the purpose and intention of the Zone, with particular reference to the North Lake Hayes Rural Residential Zone in which we own property. The PDP has an obligation to ensure that the important values of rural character and amenity that differentiate the RRZ from other residential zones are upheld and protected by the Rules and Assessment Matters of the RRZ.

<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Strongly disagree with Objective 22.2.2. Visitor and community activities should in almost all cases not be included in the zone. We also note that visitor activities could be commercial activities which are discouraged at Policy 22.2.2.3.		
<b>Point Number</b>	674.10	<b>Provision:</b>	797-22 Rural Residential and Rural Lifestyle > 842-22.4 Rules - Activities > 855-22.4.10
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Impose much more stringent standards and assessment matters Visitor accommodation within a Visitor Subzone, including scale and intensity of the activity, effect on character and amenity within the RRZ, noise, traffic and visual effects.		
<b>Point Number</b>	674.11	<b>Provision:</b>	797-22 Rural Residential and Rural Lifestyle > 842-22.4 Rules - Activities > 857-22.4.12
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Oppose Rule 22.4.12 regarding community activities as this should be a Non Complying not Discretionary activity. Community activities require strong assessment standards so that the purpose of the zone for rural living is recognised and the rural character and amenity of the zone is maintained and so that non-residential activities are not allowed.

<b>Point Number</b>	699.6	<b>Provision:</b>	255-8 Medium Density Residential > 256-8.1 Zone Purpose
<b>Position:</b>	Not Stated		
<b>Summary of Submission</b>	<p>The Medium Density Residential Zone has the purpose to provide land for residential development at increased densities. In conjunction with the High Density Residential Zone and Low Density Residential Zone, the zone will play a key role in minimising urban sprawl and increasing housing supply. The zone will primarily accommodate residential land uses, but may also support limited non-residential activities where these enhance residential amenity or support an adjoining Town Centre, and do not impact on the primary role of the zone to provide housing supply. The zone is situated in locations in Queenstown, Frankton, Arrowtown and Wanaka that are within identified urban growth boundaries, and easily accessible to local shopping zones, town centres or schools by public transport, cycling or walking. The Medium Density Residential Zone provides for an increased density of housing in locations that are supported by <u>appropriate utility adequate existing or planned</u> infrastructure. The zone will enable a greater supply of diverse housing options for the District. The main forms of residential development anticipated are terrace housing, semi-detached housing and detached townhouses on smaller sections. The zone will realise changes to density and character over time to provide for the social, economic, cultural and environmental wellbeing of the District. In particular, the zone will provide a greater diversity of housing options for smaller households including single persons, couples, small young families and older people seeking to downsize. It will also enable more rental accommodation for the growing population of transient workers in the District. While providing for a higher density of development than is possible in the Low Density Residential Zone, the zone utilises development controls to ensure reasonable amenity protection is maintained. Importantly, building height will be generally limited to two storeys. Development will be required to <del>adhere to</del> achieve high standards of urban design, providing site responsive built forms and utilising opportunities to create vibrant public spaces and active transport connections (walking and cycling). In Arrowtown, particular consideration will need to be given to the town's special character, and the design criteria identified by the Arrowtown Design Guidelines 2006. A high standard of environmental performance is encouraged to improve the comfort, health and overall sustainability of built forms. <del>To ensure the practical and timely realisation of housing supply, incentives for sustainable building design will expire five years after the date the zone is made operative.</del> The zone may also support visitor accommodation where this is best located within a residential environment and does not adversely impact on the supply of permanent (long term) rental accommodation. visitor accommodation within the zone will be sensitively designed with regard to its setting, and protect the privacy and amenity of guests and nearby residential uses. Community activities are anticipated given the need for such activities within residential areas and the high degree of accessibility of the zone.</p>

<b>Summary of Submission</b>	The burning of resinous woods such as old pine may have to be phased out. Household heating systems fuelled by the burning of wood and fossil fuels may have to be more stringent		

emission controls imposed on them by Council.

Recommendation [a]: The Queenstown Lakes District Council should ascertain as to whether or not the fencing that extends out over the strips and into the lakes Wanaka and Lake Hawea requires a resource consent and as to whether not the structures present a hazard to boats and other floating devices that people now use. [Even at 5 knots significant damage may occur.]

Recommendation [b]: The Queenstown Lakes District Council initiate a study in conjunction with The Department of Conservation, The Otago Regional Council and Kai Tahu Ki Otago to cover such topics as to the extent of encroachment by adjoining landowners on the Marginal Strips and what loss and damage to native vegetation has been incurred. The study to include the means of protection for the banks and shoreline and the means by which the native vegetation may be protected from damage and allow for regeneration.

<b>Summary of Submission</b>	A recording system of all septic tank systems should be instituted if it is not already held and a requirement that a suitably qualified individual oversee any repair work and submit a brief report to council. In addition septic tank cleaner operators be required to furnish a return that details as to where and when their services were availed of, and, in their opinion, as to whether or not the tank that has been emptied wast is operating as designed. Septic tanks after all, are only holding tanks. Action late is better than none at all.

<b>Summary of Submission</b>	Recommendation:Queenstown Lakes District Council initiate a feasibility study for the reestablishment of the horse track access on the western side of Lake Wanaka. The study to include establishing as to whether or not a legal access already exists, estimated construction costings, and estimated benefits [or cost if any] to the local communities. The study to be in conjunction with The Department of Conservation, The Otago Regional Council, and Kai Tahu Ki Otago, all of which have goals that are similar.  A concept Plan for a development is held by the Department of Conservation Wanaka in this area - The Neck. The project was conceived in conjunction with Ngai Tahu and is designed to construct a car layby off SH6, two look out points overlooking the wetland area, and walking tracks around the area. Refer also to my paper "Manuwhaia" Goal 7, submitted separately. Recommendation: that the Queenstown Lakes District Council make an approach to both Ngai Tahu and the Department of Conservation, and perhaps the Otago Regional Council for a jointly funded development of this site in terms of the concept plan held.

<b>Summary of Submission</b>	MANUWHAIA  The Neck One of the most sacred of sites in the South Island is not shown. The publication 'Manuhaea: A sacred place' by Takerei Norton gives some detail in regard to the site's importance to Maori and the page headed 'Conclusion' is attached for your perusal (please refer to submission).  I recommend: That this area be included on map 40 That this area be included in Areas of significance to Maori That the Queenstown Lakes District Council make an approach to (I; both the Department of Conservation (initially Wanaka] and Ngai Tahu, Christchurch for joint development of this sacred site under the proposed Plan. This would be a long overdue recognition of the rich Maori history imbedded in this area and in some way atone for the continuing lack of action in ensuring the identification, recording of, and protection of archaeological finds that continue to be destroyed.

**Summary of Submission** MATUKITUKI CULTIVATED AREA/GARDENS

The area is of approximately 3000 sqm [+ or -] on a hillock a short distance from the river and is accessed by a Department of Conservation track up the left hand side of the Matukituki River from the bridge to West Wanaka Station. A walk of about one hour. The area shows distinct signs of having been cultivated in the past. There are ridges and channelling cut into the ground much akin to potato ridging of today. Significant damage has been effected by the activities of livestock. It may well be that this was/is lthe place where Te Mohene was caught' by Te Puoho's party as shown on the map drawn by Huruhuru for Shortland in 1844. Te Puoho proceeded to Tukurau where he met his death. His wives composed and sang a moving waiata when they were advised of his demise some time later. The Department of Conservation has fenced part of the hillock under Tenure review.

I recommend  
That this site be included in the proposed district plan, Sites of Significance to Maori 26.11

---------------------	-------	-------------------	---

**Position:** Not Stated

**Summary of Submission** Amend as follows:

The Medium Density Residential Zone has the purpose to provide land for primarily residential development at increased densities. In conjunction with the High Density Residential Zone and Low Density Residential Zone, the zone will play a key role in minimising urban sprawl and increasing housing supply. The zone will primarily accommodate residential land uses, but may also support limited non-residential activities where these enhance residential amenity or support an adjoining Town Centre or are located in areas that have lower residential amenity as a result of proximity to industrial zones or busy roads, and do not impact on the primary role of the zone to provide housing supply...

g) The sign shall display site related messages only.

Amend the condition as follows:

If Grant Road is utilised in terms of providing vehicular access to the QEC, then an entry sign can be established at the entrance off Grant Road that advertises activities undertaken within the QEC.

Insert an advice note as follows:

Advice Note

Where events on the site may generate traffic that changes the normal operation of State highway 6 and/or the safe use of road users (motorists, cyclists or pedestrians), early engagement with the NZ Transport Agency is recommended. Under the Code of Practice for Temporary Traffic Management, a Temporary Traffic Management Plan may be required to be prepared and approved by the Transport Agency prior to implementation. This process may take up to two months.

Submission**

Amend Rule 41.5.6 to read as follows:

41.5.6. 1 Access from State Highway 6 shall be only at the intersections at Maori Jack Road and Woolshed Road, as shown on the Structure Plan.

47.5.6.2 No more than 500 residential units may be built within the R(HD) and R(SH-HD) Activity Areas without the Woolshed Road intersection being completed and available for use.

The Woolshed Road access shall not be used until that road's intersection upgrade with State Highway 6 has been completed and available for use.

47.5.6.3 No more than 300 residential units/titles may be built, or no more than 2,400 vehicle movements per day (weekly average) may be generated, whichever is the lesser, within the EIC, R(HD) and R(SH-HD) Activity Areas of the Jacks Point Zone until the Woolshed Road

intersection upgrade is completed and available for use.

- d. Chapter 22: Rural Residential & Rural lifestyle;
- e. Chapter 23: Gibbson Character Zone;
- f. Chapter 27: Subdivision & Development;
- g. Chapter 36: Noise
- h. Planning Maps."

"The submitter requests the following decision:

- a. Provision is made in the Proposed Plan to recognise existing uses;
- b. For new informal airports, the restriction on movements be amended to 10 in any calendar week;
- c. The setback on new alighting areas be 100 metres for fixed wing and 100 metres for rotary wing aircraft;
- d. Any other additional or consequential relief to the Proposed Plan, including but not limited to, the maps, issues, objectives, policies, rules, discretions, assessment criteria and explanations that will fully give effect to the matters raised in this submission."

Submitter has only provided a review of Rules relating to Informal Airports within the Proposed Rural Zone but mentions that the submission may relate to all the above zones and maps as necessary.

<b>Position:</b>	Not Stated		
<b>Summary of Submission</b>	This is unclear. Why is it only referring to dairy farming? What are the "rules" referred to? Concerned that actions to manage these very serious issues could fall into the gaps between ORC and QLDC responsibilities.

<b>Point Number</b>	755.17	<b>Provision:</b>	771-21Rural Zone > 773-21.2Objectives and Policies > 823-21.2.12Objective - 12

<b>Position:</b>	Not Stated		
<b>Summary of Submission</b>	This objective and associated policies (except for 21.2.12.5) limit their focus to “Protect, maintain or enhance the surface of lakes and rivers and their margins”. This seems odd. Why? Does this have something to do with the split responsibilities between the District and Regional Councils?		
<b>Point Number</b>	755.18	<b>Provision:</b>	26-33 Indigenous Vegetation and Biodiversity
<b>Position:</b>	Not Stated		
<b>Summary of Submission</b>	Chapter has no specific acknowledgment of aquatic biodiversity or its protection. This chapter heading is misleading and should be revisited. Vegetation is “biodiversity”.		
<b>Point Number</b>	755.19	<b>Provision:</b>	26-33 Indigenous Vegetation and Biodiversity > 27-33.1 Purpose
<b>Position:</b>	Not Stated		
<b>Summary of Submission</b>	“Purpose” states “Much of the indigenous vegetation habitat has been removed” - in fact removal will also be a consequence for all of the very many other organisms dependent on vegetation. Also what about aquatic environments? Lakes, rivers streams, wetlands and aquifers are all rich habitats for biodiversity –but are not mentioned in the Purpose.		
<b>Point Number</b>	755.20	<b>Provision:</b>	26-33 Indigenous Vegetation and Biodiversity > 28-33.2 Objectives and Policies > 29-33.2.1 Objective 1
<b>Position:</b>	Other - Please clearly indicate your position in your submission below		
<b>Summary of Submission</b>	Support the intent of the objective and all of the many policies in this chapter but suggest that some deficiencies include the absence of clear definitions of the animal size cut-off for any quantitative assessments of biodiversity, the absence of mention of any metrics of biodiversity which might help determine whether objectives are being achieved, or capable of being achieved, the absence of specific mention in objectives or policies of biodiversity in aquatic ecosystems, and in some cases referring to vegetation as if it is all of the biodiversity in the habitats mentioned

**Summary of Submission**                      General support with some amendments requested

We generally support the Strategic Direction chapter of the Plan, with the following additions or exceptions, and comments:

Wanaka 2020 consultation discussions gave firm recommendation that the Outer Growth Boundary (OGB) for Wanaka include the three rivers (Clutha, Cardrona and Waterfall Creek [with the fourth Waterway being Lake Wanaka]) as the limiting landscape features within which to contain growth (see Wanaka 2020 plan map in the original submission showing [originally red, but green in the attachment] overwhelming public acceptance and approval of the OGB).

The proposed Urban Growth Boundary may be appropriate for a current ten year plan, but the originally recommended OGB needs to be retained; come time for the next review of the Plan, the UGB could, if needed, be expanded.

Thus, we seek an additional clause in this section, making it clear that the proposed UGB is not a permanent fixture (referring to the **Wanaka 2020 OGB as the longer term limit** on urban sprawl).

<b>Summary of Submission</b>	<p>support ONL line, Oppose alignment of Zone boundary between West Meadows and Studholme Road</p> <p>- The submitter supports re-alignment of the ONL line to the proposed position along Ruby Island Road, as recommended in Marion Read's report to QLDC (excerpt; p13 of the report - attached to the original submission). When the ONL line was placed on the Landscape Categorisation (Wanaka) map, it did not correspond with the ruling handed down by Judge Jackson on the issue and was, clearly, not coherent with the position of the classification on the opposite side of Wanaka-Mount Aspiring Road.</p> <p>- The submitter also seeks the re-alignment of the zone boundary between West Meadows Drive and 102 Studholme Road (as shown on the original submission plan of Nic Blennerhassett. The current zone boundary follows neither cadastral boundary nor obvious landscape feature; it has proved problematical for the West Meadows / Ruby Ridge subdivision as well as the subdivision of 100 and 102 Studholme Road. This is an opportunity to align the zone boundary more sensibly in terms of landscape and property boundaries.</p>

**Summary of Submission**

The 2007 Landscape Protection designation was not requested by the public, and the land over which it was placed has no unifying landscape character.

It seems to have been the result of ingenuous and/or ingenious bureaucratic invention similar to the *uber* decision-making that apparently saw the Blennerhassett (and part of the Mills) land as 'undeveloped and available' ! Would such a manoeuvre have been tried with land owned by one of the 'locally prominent' developers ? ... we doubt it !

We agree that design for prevention of crime and vandalism should be promoted (eg. how splendidly the Pembroke Park skateboard/cycle development has been used and respected by young people of wide age range, for whom it was designed and constructed ... well done all who have been involved !).

**Summary of Submission**

**Pembroke Park**, as open space, will only become more valuable to the community as time goes on (what foresight from our founders and ECNZ ?). We therefore applaud incentives to design (for business, domestic and landscape) to a higher standard (8.2.3), in conjunction with policies to expedite active transport and to enhance 'walkability'. We agree that design for prevention of crime and vandalism should be promoted (eg. how splendidly the Pembroke Park skateboard/cycle development has been used and respected by young people of wide age range, for whom it was designed and constructed ... well done all who have been involved !).

The Sargood/Mills/Macpherson/Blennerhassett (extended) family has been generous over the years in providing land (and finances) for town benefit (examples are: inner nine holes of the golf course, Wanaka Station Park and, later the homestead area, QEII reserve 'Barn Pinch Farm', flood mitigation works (virtually entirely to benefit of 'downstream' properties) sanctioned on a Studholme Road property, plans for walkways/cycleways embracing five (Stone Street, Alpha Ridge, Studholme Road) adjacent properties in all, for the walkways/cycleways properties, none of which were mandated.

We care for this land. We realise that we are fortunate as current custodians. However, we also hope and expect to be trusted with making good decisions regarding future development/conservation/public amenity, and not to be excluded, by edict, from participation in the future development of Wanaka.

<b>Summary of Submission</b>	<p>1. Dr Chiles &amp; Hunt Reports – have substantially been ignored in many respects and we request that the planning team revisit this valuable document and revisit its recommendations in a more proactive and responsible manner. In particular the recommendations as to setback against landing frequency. For Council to seek and fund professional advice and then, as laypersons, ignore it is unacceptable to this rate payer.</p> <p>2. We hold the view that AIRCRAFT SOUND can be mitigated using the suite of tools in the FLY NEIGHBOURLY programme. The planning team should familiarise themselves with this programme to understand how and what can be achieved with regard aircraft sound. We are available to provide that education. We call for a better understanding of competing sound generation vehicles and equipment, when comparing with aircraft, and recognising aircraft are being unfairly maligned.</p> <p>3. We hold the view that there are world best practice techniques that can mitigate aircraft sound effects and provide Individual &amp; special interest groups the quiet enjoyment the Council is endeavouring to protect. Over the Top is already proactive in designing arrival and departure fans for remote landing sites.</p> <p>4. Industry has a substantial investment in business assets and the country through the Minister of Tourism and Tourism New Zealand is driving visitor numbers to Queenstown and the Lakes District. The expectation of activities and experiences have aircraft (fixed wing and helicopter) being an integral contributor to that experience. If there are non seneschal restrictions on aircraft operations, then the visitor experience and future tourism growth will be compromised. This risks capital investment and rateable property values resulting in severe economic challenges as a result of Council actions.</p>

In recognition of the benefits of utilities and the significant investment in utilities, enable utilities and infrastructure to be developed, maintained, upgraded and operated provided that, as a result of its location, and design;

a. the adverse effects on significant natural and physical resources and cultural values are avoided, or where this is not practicable, remedied or mitigated; and

b. other adverse effects on the environment are appropriately controlled.

c. avoid land-uses that may result in adverse reverse sensitivity effects on telecommunication infrastructure facilities or where this is not practicable, remedied, mitigated.

Enable infrastructure to be effective and efficient, especially in regard to its configuration, recognising that it may be located in or traverse sensitive areas where there is a functional or operational need for that location.

**Point Number** 787.1 **Provision:** 287-41 Jacks Point Zone

**Position:** Oppose

**Summary of Submission** Oppose the Proposed District Plan (PDP) on the basis that Jacks Point, Homestead Bay, and Hanley Downs should not be considered together with the same objectives, policies and rules as per the PDP; that Jacks Point deserves stand-alone status within the District Plan due to the reasons outlined in this submission, including the fact that a) the absence of the same strict controls as Jacks Point on subdivision, landscape and built form in Hanley Downs and Homestead Bay will result in a different character of development, and therefore these areas should not be subject to the same objectives, policies and rules under the PDP and that b) the unique and special character of Jacks Point should be preserved and enhanced and the PDP does not create a framework to achieve this.

**Point Number** 787.3 **Provision:** 287-41 Jacks Point Zone > 456-41.7 Structure Plan

**Position:** Oppose

<b>Summary of Submission</b>	With the exception / incorporation of points raised in this submission in support of the proposed District Plan, reinstate the Operative District Plan Structure Plan for the Jacks Point portion of the Jacks Point Special Zone. The current structure plan should remain operational and unchanged with the relevant land use and activity areas remaining as they are. All the areas within Jacks Point zoned as G and G/F on Figure 1, including the areas owned by the Jacks Point Residents and Owners Association and Lot 12 DP 364700 should remain as per the existing structure plan.		
<b>Point Number</b>	787.4	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Specifically retain the following rule: " <i>(a) Zone F: Recreation Activities - the use of the area is restricted to recreation activities</i> " and that there be no residential and/ or commercial subdivision and development in this area.

<b>Summary of Submission</b>	Specifically retain the following rule imposing a maximum building height of 4 m in Areas G and G/F including areas owned by the JPROA and Lot 12 DP 364700.		
<b>Point Number</b>	787.7	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	With the exception / incorporation of points raised in support of the proposed District Plan in this submission, reinstate the Operative District Plan rules as they relate to the Jacks Point portion of the Jacks Point Special Zone, noting that the proposed rules are not prescriptive enough to ensure a high quality of landscape and visual amenity and urban design consistent with the receiving environment of Jacks Point.		
<b>Point Number</b>	787.8	<b>Provision:</b>	287-41 Jacks Point Zone
<b>Position:</b>	Support		

<b>Summary of Submission</b>	Support separating the areas within the Jacks Point Zone from the Millbrook and Waterfall Park Zone, as they are different from each other and do not share a sufficient number of common attributes to be considered together.		
<b>Point Number</b>	787.9	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 327-41.4.1
<b>Position:</b>	Support		
<b>Summary of Submission</b>	Support removing the requirement for controlled resource consent within Jacks Point when applying to construct a residential property, as due to the covenants on each residential title, this is already rigorously and successfully controlled to a high built and landscape standard consistent with the vision and ethos of Jacks Point.		
<b>Point Number</b>	787.10	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities > 347-41.4.9

<b>Summary of Submission</b>	Within the proposed framework we support changes in order to allow the village area to develop in a manner which is commercially viable in order to support the community it services at an appropriate scale and design.		
<b>Point Number</b>	787.11	<b>Provision:</b>	287-41 Jacks Point Zone > 288-41.1 Zone Purpose
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Support a range of housing needs being provided within the district and we agree that there is the ability to absorb this housing in the overall Jacks Point Zone, providing this development is controlled to be sympathetic to the environment. However the proposed provisions do not sufficiently achieve this.		
<b>Point Number</b>	787.12	<b>Provision:</b>	287-41 Jacks Point Zone > 288-41.1 Zone Purpose
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Address the financial burden of granting access to Hanley Downs and Homestead Bay through Jacks Point roading infrastructure, and the additional burden on the trail networks and other areas funded exclusively by the Jacks Point residents.		
<b>Point Number</b>	787.13	<b>Provision:</b>	287-41 Jacks Point Zone > 326-41.4 Rules – Activities
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Add a district plan rule that specifically refers to an assessment of effects on neighbouring properties / neighbourhoods of proposed resource consent applications, plan changes etc, because if the original Jacks Point vision becomes compromised (i.e increased residential		

density over and above what is anticipated) there needs to be a framework within the proposed district plan for the existing residents to be appropriately considered.

"33.2.2.3 - Avoid the clearance or alteration of tussock grassland where it will have adverse effect on water yield values in dry catchments".

---

**Point Number** 788.2 **Provision:** 26-33 Indigenous Vegetation and Biodiversity

**Position:** Oppose

**Summary of Submission** The District Plan contains many references to indigenous biodiversity, and it appears that the term indigenous has been inserted in many locations without thought as to the effect of the qualification. See submission for further detail.

---

**Point Number** 788.3 **Provision:** 26-33 Indigenous Vegetation and Biodiversity

**Position:** Oppose

**Summary of Submission** The clearance of streamside vegetation has an effect on the habitat of trout or salmon, and this has not been stated or considered within the District Plan.

---

**Point Number** 788.4 **Provision:** 8-General DP Review Comments

**Position:** Oppose

**Summary of Submission** The current District Plan provides for the consideration of the values of unformed legal roads as a matter of consideration when resource consents are considered. However, there appears to be no similar provision in the proposed District Plan. Given the absence of a transport section, it is not clear where these rules can easily be reinserted however.

<b>Summary of Submission</b>	The ORC supports the inclusion of controls, consistent with the triennial agreement under the Local Government Act 2002, ensuring or supporting compliance with regional objectives and rules		
<b>Point Number</b>	798.7	<b>Provision:</b>	771-21Rural Zone > 853-21.4Rules - Activities
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	The ORC supports the inclusion of controls, consistent with the triennial agreement under the Local Government Act 2002, ensuring or supporting compliance with regional objectives and rules, however provisions are proposed which may result in overlap with regional rules. This may be confusing and increase the cost to applicants if consents are needed under both		

regional and district plans. For example:

- Structures or disturbance of any lake or river bed, (see Chapter 13 of the Regional Plan: Water)
- Certain activities on the land outside of those beds, (see Chapter 14 of the Regional Plan: Water)
- Activities that result in the discharge of contaminants to air (other than dust or odour where a district plan response is relevant, see Regional Plan: Air Policies 10.1 and 11.1).
- Rule 21.4.30 which permits suction dredging.
- Rule 21.5.7 Dairy Farming. This rule prohibits dairy stock from standing in the bed of, or on the margin of a waterbody.

ORC requests discussion occurs to define respective roles in these areas of duplication, and requests that an advice note is added to any remaining rules in areas of statutory overlap to inform plan users of the need to consult the relevant Regional Plan.

For example:

"Note - The Regional Plan: <Water> for Otago must be met in full for the activity to be permitted in terms of that Plan. In addition, national regulation controls some activities".

<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	ORC recognises the desire to provide for mineral extraction where the environmental effects can be appropriately managed, but is concerned the proposed approach will not achieve good environmental outcomes. In particular, ORC requests the following changes: <ul style="list-style-type: none"><li>• Provisions for extractive activities to ensure earthworks and mining avoid the interception or contamination of sensitive aquifers.</li><li>• Provisions addressing subsequent rehabilitation of land to avoid causing adverse environmental effects such as ongoing discharges to air and water.</li><li>• The requirements of policy 21.2.5.3, that sites are rehabilitated, should be reflected in the rules, particularly permitted rule 21.4.30.</li></ul>

<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	ORC recognises the desire to provide for mineral extraction where the environmental effects can be appropriately managed, but is concerned the proposed approach will not achieve good environmental outcomes. In particular, ORC requests the following changes: <ul style="list-style-type: none"><li>• Provisions for extractive activities to ensure earthworks and mining avoid the interception or contamination of sensitive aquifers.</li><li>• Provisions addressing subsequent rehabilitation of land to avoid causing adverse environmental effects such as ongoing discharges to air and water.</li><li>• The requirements of policy 21.2.5.3, that sites are rehabilitated, should be reflected in the rules, particularly permitted rule 21.4.30.</li></ul>

<b>Point Number</b>	798.11	<b>Provision:</b>	1059-26 Historic Heritage > 1061-26.2 Identification and Protection
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	ORC opposes Section 26.2 where it is proposed that the role of the general public is to prove the relevance of any features for inclusion in the plan. This is inconsistent with both the requirements of the Act and QLDC's approach to the management of other resources.

<b>Point Number</b>	798.12	<b>Provision:</b>	1-28 Natural Hazards > 5-28.3 Objectives and Policies
<b>Position:</b>	Support		
<b>Summary of Submission</b>	ORC supports the purpose of Natural Hazards as set out in Section 28.1, in particular, ensuring that when development is proposed on land potentially subject to natural hazards, the risk is managed or mitigated to tolerable levels. In instances where the risk is intolerable, natural hazards will be avoided.

<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	<p>ORC supports the concept of compact urban form, but suggests that the District Plan provide for some degree of flexibility where strategic infrastructure supports areas of expansion and relates well to QLDC's unique environment e.g. Objective 4.2.3 and Policy 4.2.3.1. For example, some expansion is appropriate if it occurs around nodes that are connected to a main corridor serviced by public transport.</p> <p>Therefore, ORC requests Objective 3.2.2.1 is amended accordingly.</p>

**Position:** Oppose

**Summary of Submission** Responding positively to climate change does not require concentrating all future development within existing urban areas (Policy 3.2.4.8.1). Public transport can efficiently support nodes of development connected (e.g. within walking and cycling distance) to a main corridor.

**Summary of Submission** Providing for Public Transport

The Otago Regional Council is responsible for scheduled public transport services in the Queenstown Lakes District. The ORC is currently reviewing public transport services in the Wakatipu Basin with the view to enhance services for the future (2018 and beyond). This enhancement may involve changes to routes as well as timetables. The District Plan needs to have flexibility for bus routes to be able to adapt in the future for passenger demand as a result of population growth, tourism, and development (within reason).

The Regional Public Transport Plan 2014 outlines services that are integral to the public transport network, and those that are not. It also specifies the policies that relate to the provision of services and the associated infrastructure (Chapter 7) and these should be considered in the District Plan.

<b>Summary of Submission</b>	The designation of Outstanding Natural Feature for the Clutha River be limited to the river and, in the case of specific areas adjacent to the river that are significant enough to need such a designation (such as Halliday Bluff), the river plus its crown reserve. The crown reserve offers protection of between 80 and 100 metres either side of the Clutha river from the Cardrona-Clutha confluence to Luggate.		

The designation ONF is inappropriate as a way of describing a wider tract of land adjoining the river and/or visible from the river. The term should be limited as far as possible to the feature itself, that is the river, and the designation ONF should be sufficient to protect those areas immediately adjacent to and visible from the ONF without the need to incorporate more land within the classification ONF.

<b>Summary of Submission</b>	Support removing the requirement for controlled resource consent within Jacks Point when applying to construct a residential property, as due to the covenants on each residential title, this is already rigorously and successfully controlled to a high built and landscape standard consistent with the vision and ethos of Jacks Point.

<b>Summary of Submission</b>	Within the proposed framework we support changes in order to allow the village area to develop in a manner which is commercially viable in order to support the community it services at an appropriate scale and design.		
<b>Point Number</b>	802.11	<b>Provision:</b>	287-41 Jacks Point Zone > 288-41.1 Zone Purpose
<b>Position:</b>	Oppose		
<b>Summary of Submission</b>	Support a range of housing needs being provided within the district and we agree that there is the ability to absorb this housing in the overall Jacks Point Zone, providing this development is controlled to be sympathetic to the environment. However the proposed provisions do not sufficiently achieve this.		
<b>Point Number</b>	802.12	<b>Provision:</b>	287-41 Jacks Point Zone > 288-41.1 Zone Purpose

<b>Summary of Submission</b>	Add a district plan rule that specifically refers to an assessment of effects on neighbouring properties / neighbourhoods of proposed resource consent applications, plan changes etc, because if the original Jacks Point vision becomes compromised (i.e increased residential		

density over and above what is anticipated) there needs to be a framework within the proposed district plan for the existing residents to be appropriately considered.

Uncontrolled urban development can result in the fragmentation of rural land; and poses risks of urban sprawl, disconnected urban settlements and a poorly ineffective and inefficient coordinated infrastructure network. The roading network of the District is under some pressure and more low density residential development located remote from employment and service centres has the potential to exacerbate such problems.  
  
The objectives and policies for Urban Development provide a framework for a managed approach to urban development that utilises land and resources in an efficient manner, and preserves and enhances natural amenity values. The approach seeks to achieve integration between land use, infrastructure such as transportation, services, open space networks, community facilities and education; and increases the viability and vibrancy of urban areas  
  
Well planned urban growth and land use will also ensure that adverse effects on the operation, maintenance, upgrading and long-term development of regionally significant infrastructure, such as the National Grid, are avoided.

Landscapes have been categorised into three classifications within the Rural Zone. These are Outstanding Natural Landscapes (ONL) and Outstanding Natural Features (ONF), where their use, development and protection are a matter of national importance under Section 6 of the RMA. These landscape values need to be carefully managed and protected from

inappropriate subdivision, use and development. They must also be balanced with other matters of national importance, such as the operation, maintenance, upgrading and development of the National Grid. The Rural Landscapes Classification (RLC) makes up the remaining Rural Zoned land and has varying types of landscape character and amenity values. Specific policy and assessment matters are provided to manage the potential effects of subdivision and development in these locations.

To avoid the establishment of new land use activities that could adversely affect (including through reverse sensitivity) the safe, efficient or effective operation, maintenance, upgrading and development of the National Grid.

New policy:  
To manage the effects of subdivision, development and land use on the safe, effective and efficient operation, maintenance, upgrading and development of the National Grid by ensuring that:

- a. Areas are identified in the Plan to establish safe buffer distances for managing subdivision and land use development near the National Grid;
- b. Sensitive activities and large-scale structures are excluded from establishing within National Grid Yards and are appropriately managed around substations;
- c. Subdivision is managed around the National Grid to avoid subsequent land use from restricting the operation, maintenance, upgrading and development of the National Grid; and
- d. Changes to existing activities within a National Grid Yard and around National Grid substations do not further restrict the operation, maintenance, upgrading and development of the National Grid.

Provide for the sustainable, secure and efficient use and development of the electricity transmission network, including within the transmission line corridor, and to protect activities from the adverse effects of the electricity transmission network, including by:

- Controlling the proximity of buildings, structures and vegetation to existing transmission corridors
- Discouraging sensitive activities from locating within or near to the electricity transmission National Grid Yard to minimise potential reverse sensitivity effects on the transmission network
- Managing subdivision within or near to electricity transmission corridors to achieve the outcomes of this policy to facilitate good amenity and urban design outcomes

Rule 30.4.10  
Buildings, Structures and Sensitive Activities in National Grid Yards:  
(a) Under the National Grid Conductors (wires), on all sites within any part of the National Grid Yard any buildings and structures must:  
(i) If they are for a sensitive activity, not involve an increase in the building height or footprint where alterations and additions to existing buildings occur; or  
(ii) Be a fence less than 2.5m high; or  
(iii) Be network utilities within a transport corridor or any part of electricity infrastructure that connects to the National Grid; or  
(iv) Be an uninhabitable farm building or structure for farming activities (excluding milking/dairy sheds (but not associated ancillary structures and yards), protective canopies, or factory farming buildings); or  
(v) Be artificial crop protection structures and crop support structures excluding a commercial greenhouse and protective canopies.

(b) All buildings or structures permitted by a) must comply with at least one of the following conditions:  
(i) A minimum vertical clearance of 10m below the lowest point of the conductor associated with National Grid lines; or  
(ii) Demonstrate that safe electrical clearance distances required by NZECP34:2001 are maintained under all National Grid line operating conditions.  
(c) Buildings and structures shall be at least 12m from a National Grid support structure unless it is a:  
(i) Network Utility within a transport corridor or any part of electricity infrastructure that connects to the National Grid.  
(ii) Fence less than 2.5m in height and more than 5m from the nearest support structure.  
(iii) Artificial crop protection structure or crop support structure between 8 metres and 12 metres from a pole support structure that:  
a. Meet the requirements of NZECP34:2001;  
b. are no more than 2.5m in height;  
c. are removable or temporary to allow a clear working space 12 metres from the pole where necessary for maintenance and emergency repair purposes, and  
d. allow all weather access to the pole and a sufficient area for maintenance equipment, including a crane; and  
(iv) Artificial crop protection structure or crop support structure located within 12 metres of a tower support structure if they meet the requirements of clause 2.4.1 of NZECP34:2001.

**Summary of Submission** Replace Rule 30.5.10 with the following non-complying Rule:  
Rule 30.5.10  
Buildings, Structures and Sensitive Activities within the National Grid Yard are non-complying:  
a) Any building or addition to a building for a sensitive activity.  
b) Any change of use to a sensitive activity or the establishment of a new sensitive activity.  
c) Dairy/milking sheds or buildings (excluding associated ancillary structures and yards) factory farm buildings, protective canopies, and commercial greenhouses.  
d) Hazardous facility.  
e) Any building or structure not permitted by Rule 30.4.10.

Add a notification statement to the new non-complying activity status:

Where an activity requires resource consent solely because it is within a National Grid Corridor, National Grid Yard or around a National Grid substation then the application need not be publicly notified and need not be served on any affected party other than Transpower New Zealand Limited.

Buildings and Structures within the National Grid Yard being:-

30.5.10.1 A non-conductive fence located 5m or more from any National Grid Support Structure and no more than 2.5m in height.

30.5.10.2 Any utility within a transport corridor or any part of electricity infrastructure that connects to the National Grid.

30.5.10.3 Any new non-habitable building less than 2.5m high and 10m<sup>2</sup> in floor area.

30.5.10.4 Any non-habitable building or structure used for agricultural activities provided that they are:

a. less than 2.5m high

b. Located at least 12m from a National Grid Support Structure

c. Not a milking shed/dairy shed (excluding the stockyards and ancillary platforms), or a commercial glasshouse.

30.5.10.5 Alterations to existing buildings that do not alter the building envelope.

Replace Rule 30.5.11 with the following rules

Rule 30.5.11

Earthworks within the National Grid Yard are permitted activities, subject to compliance with the following standards:

- a) Shall be no deeper than 300mm within 12m of any National Grid support structure foundation
- b) Shall not compromise the stability of a National Grid support structure; and
- c) Shall not result in a reduction in the ground to conductor clearance distances below what is required by Table 4 of NZECP34.

Provided that, the following are exempt from point (a) above:

- Earthworks for a Network Utility within a transport corridor, as part of a transmission activity, or for electricity infrastructure; or
- Earthworks undertaken as part of agricultural or domestic cultivation, or repair, sealing or resealing of a road, footpath, driveway or farm track.
- Vertical holes not exceeding 500mm in diameter are exempt provided they are:
  - i. more than 1.5m from the outer edge of pole support structure or stay wire; or
  - ii. a post hole for a farm fence or horticulture structure and more than 5m from the visible outer edge of a tower support structure foundation.

Add a new Restricted Discretionary Rule:

Rule 30.5.12

Within the National Grid Yard:

- a) Any earthworks not permitted by Rule 30.5.11 (a) above is a restricted discretionary activity.

Matters of Discretion:

- a) Impacts on the operation, maintenance, upgrade and development of the National Grid.
- b) Compliance with NZECP34:2001.
- c) Technical details of the characteristics and risks on and from the National Grid infrastructure.
- d) The risk to the structural integrity of the National Grid.
- e) Any impact on the ability of the National Grid owner (Transpower) to access the National Grid.
- f) The risk of electrical hazards affecting public or individual safety, and the risk of property damage.

Add a new Non-Complying Rule:

Rule 30.5.13

Within the National Grid Yard:

- g) Any earthworks not permitted by Rules 30.5.11(b) and (c) above is a non-complying activity.

**Summary of Submission** Add a new Restricted Discretionary Rule:

Rule 30.5.14

Any building, sensitive activity, hazardous facility or intensive development within 150m of the designated boundary (or secured yard) of a National Grid substation, with matters of discretion restricted to

- a) The extent to which the development may adversely affect the efficient operation, maintenance, upgrading and development of the substation.
- b) The extent to which the proposed development design and layout enables appropriate separation distances between activities sensitive to National Grid lines and the substation.
- c) The results of any detailed investigations to determine appropriate separation distances between activities sensitive to National Grid lines and the substation.
- d) Any other measures proposed to avoid or mitigate potential adverse effects, including reverse sensitivity effects, on the substation.
- e) The risk of electrical hazards affecting public or individual safety, and the risk of property damage.

**Summary of Submission** Add new Rules:

Rule 30.5.15

Subdivision of land in any zone within the National Grid Subdivision Corridor is a restricted discretionary activity if it complies with the following standard:

- a) All allotments shall identify a building platform for the principal building and any dwelling, to be located outside the National Grid Yard.

Matters of Discretion:

- a) Impacts on the operation, maintenance, upgrade and development of the National Grid.
- b) The ability of future development to comply with NZECP34:2001.
- c) Technical details of the characteristics and risks on and from the National Grid infrastructure.
- d) The ability of the applicant to provide a complying building platform.
- e) Location, design and use of the proposed building platform or structure as it relates to the National Grid transmission line.

- f) The risk of electrical hazards affecting public or individual safety, and the risk of property damage.
- g) The nature and location of any vegetation to be planted in the vicinity of the National Grid transmission lines.

Add new Rule:

Rule 30.5.16

Any subdivision of land in any zone within the National Grid Subdivision Corridor which does not comply with the restricted discretionary activity standard (a) under Rule 1 is a non-complying activity."

**Position:** Oppose

**Summary of Submission** Amended as follows:

The control of subdivision is a specific matter of relevance to District Plans. The principal feature of subdivision is that it produces a framework of land ownership which provides the basis for land use development and activities. Subdivision and land use are, therefore, closely related.

....

Subject to standards, all subdivision requires resource consent as a ~~discretionary controlled~~ activity. It is recognised that subdivisions will have a variable nature and scale with different issues to address. ~~Good subdivision design, servicing and the management of natural hazards are underpinned by logic and a shared objective to create healthy, attractive and safe places.~~

Delete text (detailed in submission) and replace with:

Good subdivision can help to ~~creates~~ neighbourhoods and places that people want to live or work within, and should also result in more environmentally responsive development that reduces car use, encourages walking and cycling, and maximises access to sunlight.

Subdivision provides the framework of service provision for land use including roading, water

supply, sewage treatment and disposal, energy, telecommunication, stormwater and trade waste.

...

The subdivision section does not apply to the RPZ, and Queenstown Park is subject to a separate set of provisions specific to the special zone

**Point Number** 806.206 **Provision:** 26-33 Indigenous Vegetation and Biodiversity

**Position:** Not Stated

**Summary of Submission** QPL does not support the location or the extent of the four SNAs identified on its land. QPL considers that the proposed Queenstown Park Special Zone would ensure development that

supports retention and enhancement of the indigenous vegetation and biodiversity values would be achieved. Should the Council decline the relief seeking the Queenstown Park Special Zone, QPL requests that the SNAs be removed from its land and the clearance of vegetation be enabled throughout the site.

(a) That a Special Zone is applied to Queenstown Park and the SNAs be removed from QPL's land; or

(b) If the request for a Special Zone to apply to Queenstown Park is declined, then QPL requests that the SNAs are deleted from the site and the clearance of indigenous vegetation is permitted.

**Point Number** 810.15 **Provision:** 48-1t "Heading 5,5" 5 Tangata Whenua > 50-5.2 Ngai Tahu / Kai Tahu

**Position:** Not Stated

**Summary of Submission** Combine the 'Manawhenua' and the 'Association with the Queenstown Lakes District' subsections under a new subheading 'Ngai Tahu Association with the Queenstown Lakes District'. This is recommended for clarity. Replace the notified text as set below:

Ngai Tahu Association with the Queenstown Lakes District'

Waitaha, Kati Mamoe and Ngai Tahu, nowadays collectively referred to as Ngai Tahu, are a network of peoples closely connected by whakapapa, trade and their shared history who constantly traversed Te Wai Pounamu. Ngai Tahu have centuries' long customary associations, rights and interests in the Queenstown Lakes District and its resources. These associations are both historical and contemporary and include whakapapa, place names, mahinga kai, tribal economic development and landholdings.

Traditionally Ngai Tahu Hapu would travel to pre-determined sites throughout the region to gather mahinga kai resources for their own use, as well as for trade. The hunting of birds, eels, the digging of fern root and ti root, and the gathering of taramea, and precious stone resources such as pounamu and silcrete, were the main focus of activity.

Ngai Tahu had permanent and seasonal kainga (villages and campsites) around the interior lakes Whakatipu Wai Maori, Wanaka

and Hawea. These kainga included:

a. **Queenstown:** A kaika was located near Queenstown called Tahuna, where a Kati Mamoe chief Tu Wiri Roa was born and grew to manhood. Tu Wiri Roa had a daughter Haki Te Kura, whom is immortalised by swimming across Lake Wakatipu a distance of some five

kilometres or more. Another settlement, Te Kirikiri pa, once occupied the site where the Queenstown Gardens is now. Kati Mamoe had a kaika near the Kawarau Falls called O Te Roto, and another kaika, Takerehaka, was sited near Kingston.

**b. Wanaka:** A kaika called Parakarehu, was sited near present day Penrith. Takikarara kaika was situated on the peninsula between Roy and Dublin Bays. Settlements and campsites existed at Makarora and Matukituki.

**c. Hawea:** There were a number of sites at Hawea where small settlements and campsites were utilised seasonally. Manuhaea was an important eeling kaika at the neck of the lake. The old kaika of Manuhaea was flooded when the Hawea dam was constructed, as occurred with a number of other sites around the edge of Lake Hawea.

A number of Maori ara tawhito (trails) traversed the inland area of what is now the Queenstown Lakes District. The routes went inland from the coastal settlements of Otago and Southland up the valleys and passes, and returned following the waterways.

Manawhenua hold traditional customary rights and maintain contemporary relationships within the District determined by whakapapa (genealogical ties), resource use and ahi-ka-roa (the long burning fires of occupation). These rights are traceable and defined by tradition, whakapapa and practice.

Ngai Tahu has maintained its associations with the District and continues to develop its economy through investment in tourism, landholdings and mahinga kai initiatives. Artworks, interpretation, stories and place names continue to reflect Ngai Tahu's contemporary identity in the built and natural environment. The Queenstown Lakes District Council acknowledges the special relationship Ngai Tahu has with the District through the Treaty partnership.

<b>Summary of Submission</b>	The change from controlled to permitted activity status for building platforms is sensible, but only if standards are introduced which define the matters previously controlled: location, appearance, earthworks, landscaping. These standards do not exist in the proposed plan as it stands.		

<b>Point Number</b>	811.3	<b>Provision:</b>	797-22 Rural Residential and Rural Lifestyle > 842-22.4 Rules - Activities > 845-22.4.3
<b>Position:</b>	Support		
<b>Summary of Submission</b>	The proposed plan is not clear as to the activity status of buildings Not on a building platform in the RL zone. Nor does there appear to be standard governing the number of non-residential buildings, or building platforms for non-residential buildings. But these matters do need to have clear rules.

**Position:** Not Stated

**Summary of Submission** Submits that in general the District Plan, both in its present form and as proposed, is inefficient in meeting the requirement of the RMA of allowing society to achieve its goals whilst preserving the environment. It does not have sufficiently firm and clear rules that regulate activities and set standards, and relies excessively on official's s discretion to arbitrarily regulate activities on a case by case basis.

States there is a need to reduce the extent of discretionary decision-making by Council officials and independent commissioners.

Requests greater extent of notification and limited notification of applications. The District plan should scrap all specific stipulations that preclude notification, and allow notification to be governed by criteria for notification dictated by the RMA.

**Summary of Submission** Opposes the VA subzone over the Matakauri Lodge. The proposed sub zone for Matakauri has no planning rationale. Submits that the creation of special Rural Lifestyle visitor accommodation subzones will not solve potential conflicts between the Rural Lifestyle zone and visitor accommodation , but rather enhance them. The site has been developed to a level of intensity that is now in excess of twenty times the standard for visitor accommodation activity.

**Summary of Submission** TAMI has the following amendments for the proposed District Plan:

Implement Objective D1 Tangata whenua roles and interests, and Policy D1 of the National Policy Statement – Freshwater Management, particularly in Chapter 27 Subdivision and Development, Chapter 30 Energy and Utilities, and other District Plan chapters that have a direct impact on freshwater quality and quantity. For more information about Objective D and Policy D1 of the NPS-FM, see pages 85-87 of the Ministry for the Environment's *A Guide to the National Policy Statement for Freshwater Management 2014*.

Ensure that the Ngai Tahu terminology used in Chapter 5 is consistently used throughout the Plan and in the definitions and maps.

The list of taonga species in Chapter 5 to be updated to include freshwater fish species and other land based animals.

Amend the titles of the four chapters in *Part Two: Strategy* to have the prefix "Strategic". The way the chapters are currently titled, and promoted by Council during the submission phase, it seems that the only strategy chapter in the Plan is "Strategic Direction". TAMI has been informed by Council that Chapter 5 is a strategic chapter and this information has affected TAMI's submission and the content of the Chapters 3 and 5.

A stronger link is to be made between Chapter 5 and Chapter 33: Indigenous Vegetation and Biodiversity; particularly, the clearance criteria in 33.2.1.9, and taonga species and related habitat, and nohoanga.

Amend the alpine limit from 1070m to 800m. This change is in line with the change in biodiversity at 800m, significant increased risk of erosion and sedimentation, and Landcare Research's Land Use classifications.

**Summary of Submission** Definitions - Aerodrome/Airport

Issue:

(a) It is unclear why there is a definition of "Aerodrome" in the District Plan, when the other definitions which are relevant to an airport, such as "Airport Activity" and "Airport Operator", all refer to "Airport" rather than "Aerodrome".

Relief Requested:

(b) Delete the definition "Aerodrome", replace it with an equivalent definition for "Airport", and delete any other reference to "Aerodrome" in the District Plan.

**Summary of Submission** Definitions - Air Noise Boundary

Issue:

(a) It is unclear why there needs to be two separate definitions of "Air Noise Boundary", with one applying to all air noise boundaries and the second applying just to the Queenstown ANB. It is also unclear why these two identical definitions should be slightly differently worded. It is difficult to see how deleting one of them could have any meaningful consequence.

**Summary of Submission** Definitions - Domestic Livestock

Issue:

(a) The definition of "Domestic Livestock" raises (at least) the following issues:

- (i) The first bullet point makes no reference to 'per property' or 'per site', whereas the second bullet point does.
- (ii) The second bullet point refers firstly to "a property" which is not a defined term, and then to "per site" which is a defined term. This inconsistency is undesirable.
- (iii) If a control is to be imposed on adult roosters, a similar control should be imposed on adult peacocks which are found on properties in the district and which are noisier and more objectionable than adult roosters.
- (iv) In the Note at the end, the words "... as defined by the Plan" should be deleted because they are unnecessary.

Relief Requested:

(b) Amend the definition of "Domestic Livestock" to address the issues raised above.

**Summary of Submission** Definitions - Dwelling

Issue:

(a) The Operative District Plan refers only to a "residential unit" and contains no reference to "Dwelling". That approach has operated very well for the past 20 years, without causing any difficulties. It is unclear why a new definition of "Dwelling" has now been included, particularly when it is intended to have the same meaning as "residential unit". Including this new definition, together with use of the term "Dwelling" in other parts of the plan, adds an unnecessary complication without achieving anything.

Relief Requested:

(b) Delete the definition of "Dwelling" and amend every other reference to "Dwelling" in the District Plan to read "residential unit".

**Summary of Submission** Definitions - Ground Level

Issue:

(a) The third bullet point of the definition of "Ground Level" potentially creates a problem. Up until a few years ago the Council did not require a subdivider to obtain separate land use consent for earthworks associated with a subdivision. However a few years ago the Council changed its interpretation of the provisions of the Operative District Plan and started requiring subdividers to obtain separate land use consent for all earthworks associated with a subdivision. As a consequence, under the Operative District Plan, subdivisions have changed the defined "Ground Level" of subdivided sites through land use consents obtained for earthworks associated with the relevant subdivision. It appears that the third bullet point in this definition of "Ground Level" (together with the first bullet point) may operate retrospectively to change the ground level applicable to sites created through subdivision consents issued under the Operative District Plan.

Relief Requested:

(b) Either delete the third bullet point from this definition, or make such other amendments as are necessary to ensure that this bullet point only applies to subdivision consents granted after the date that Plan Change 49 (which created the new earthworks chapter) became operative, or such other relief to avoid this retrospective consequence.

**Summary of Submission** Definitions - Ground Level (Industrial B Zone - O'Connell Terrace Precinct)

Issue:

(a) The definition of "Ground Level" excludes ground level for the Remarkables Park Zone and excludes ground level for the Industrial B Zone (O'Connell Terrace Precinct). Immediately following is a separate definition for ground level in the Remarkables Park Zone. It is unclear whether there should also be a separate definition for ground level relating to the Industrial B Zone (O'Connell Terrace Precinct).

Relief Requested:

(b) Amend the District Plan if required to address the previous issue.

**Summary of Submission** Definitions - Minor Alterations and Additions to a Building

Issue:

(a) This submission point is lodged to enable this definition to be reconsidered. The following points are made:

(i) Are there any other kinds of timber apart from "natural... timber", and if there are, why are they excluded?

(ii) Why is there any concern about the material (or colour) of an exterior deck?

(iii) Many natural timbered decks start a dark colour but then bleach very pale over time.

There are clear stains intended to maintain a darker colour. Why does the definition allow dark stains but not allow clear stains?

(iv) Why does the definition exclude modern products which are not timber but are designed and intended to look like timber (and last longer, without warping)?

(v) Why is it necessary to say that a deck must comply with applicable rules and standards for activities and not apply the same comment to other external alterations referred to in the other two bullet points? (the point being that the second sentence of the first bullet point is unnecessary).

(vi) In the third bullet point, the third use of the word "materials" makes a nonsense of the bullet point.

**Summary of Submission** Definitions - National Grid

Issue:

(a) The definitions relating to the National Grid have probably been supplied by Transpower. No thought appears to have been put into amending them to fit into this District Plan. The following points are noted:

(i) There is no definition of "National Grid".

(ii) The definition of "National Grid Sensitive Activities" uses terms similar to, but different from, terms defined in this District Plan. For example it includes reference to "Child Day Care Activity" and "Day Care Activity" whereas the defined term in this District Plan is "Day Care Facility" (and there are other similar mis-references).

(b) The diagram in the definition of "National Grid Yard" is meaningless because, the way it is copied, the diagram does not show the different parts detailed in the Legend.

Relief Requested:

(c) Review and amend all definitions relating to the National Grid so that they make sense, are understandable, and are consistent with defined terms in this District Plan.

**Summary of Submission** Definitions - OCB

Issue:

(a) The following points are noted:

- (i) There are two separate definitions, one of which appears to relate to Queenstown Airport and the other to Wanaka Airport, but there is no reference to either Queenstown Airport or Wanaka Airport in the relevant definition;
- (ii) The wording in the two definitions is inconsistent, particularly noting one reference to "55 dB Ldn" and another to "55 dBA Ldn";
- (iii) Are the two year references meant to be different?

Relief Requested:

(b) Amend these two definitions to address the issues detailed above.

  - (iii) Either delete the Notes or make it clear that they are Advice Notes for information purposes and are not part of the definition.

<b>Summary of Submission</b>	<p>Recreation - 3.2 Goals, Objectives and Policies - 3.2.4 Goal - 3.2.4.7 Public Access</p> <p>Issue:</p> <p>(a) Chapter 3 does not contain any high level Goal, Objective or Policy relating to recreation. This is inappropriate in a district where recreation is so important to residents and visitors. Objective 3.2.4.7 goes part of the way by referring to facilitating public access to the natural environment, but that Objective (and the related Policy 3.4.2.7.1) is arguably inconsistent with Goal 3.2.4 which is "The protection of our natural environment and ecosystems" because facilitating public access probably does the opposite.</p>		

Relief Requested:

(b) Amend Chapter 3 to appropriately provide a high level direction in relation to recreation. That could be achieved by:

(i) Amending Goal 3.2.4 to read "The protection and enjoyment of our natural environment and ecosystems".

(ii) Amending Objective 3.4.2.7 to read: "Facilitate public access to the natural environment and to recreation opportunities".

(iii) Amend Policy 3.2.4.7.1 to read: "Opportunities to provide public access to the natural environment and to recreation are sought at the time of plan changes, subdivision or development".

**Summary of Submission** Objective 4.2.1.7

Issue:

(a) It is difficult to see how urban development can maintain the productive potential and soil resource of rural land as required by Policy 4.2.1.7. If that is intended to be achieved by excluding urban development from rural land, then the policy should be amended to broaden the reference to what is being protected.

**Summary of Submission** Policy 4.2.3.7

Issue:

(a) Policy 4.2.3.7 requires the edges of Urban Growth Boundaries to be managed to provide a sensitive transition to rural areas. That assumes that a sensitive transition is always appropriate. The difficulty with that approach is that supposedly 'sensitive' transitions, such as rural residential zoning around the edge of an urban area, inevitably crumble under development pressure. In many cases a hard urban edge is a better and more defensible approach.

Relief Requested:

(b) Amend Policy 4.2.3.7 as follows:

"The edges of Urban Growth Boundaries are managed to provide a sensitive an appropriate transition to rural areas."

**Summary of Submission** Rule 6.4.1.2

Issue:

(a) Rule 6.4.1.2 is awkwardly worded, and arguably inconsistent. It also refers to the Strategic Directions Chapter 3 which is unnecessary because Chapter 3 obviously informs the entire District Plan.

Relief Requested:

(b) Reword Rule 6.4.1.2 and the beginning of Rule 6.4.1.3 as follows:

"6.4.1.2 The landscape categories apply only to the Rural Zone. The Landscape Chapter 6 and Strategic Direction Chapter's objectives and policies are relevant and applicable in all zones where landscape values are at issue, except where specified in Rule 6.4.1.3.

6.4.1.3 The landscape categories apply only to the Rural Zones, but do not apply to the following areas within the Rural Zones:

[(a) (e)]'

**Point Number** 836.21 **Provision:** 81-6 Landscape > 131-6.4 Rules > 132-6.4.1 Application of the landscape provisions > 135-6.4.1.3

**Position:** Not Stated

**Summary of Submission** Rule 6.4.1.3 Landscape Category - Ski Area Sub Zones

Issue:

(a) The Operative District Plan excludes Ski Area Sub Zones from the landscape categories. Rule 6.4.1.3 carries that exemption forward but amends it to read "Ski Area Activities within the Ski Area Sub Zones". This amendment effectively means that the landscape categories apply to some activities within Ski Area Sub Zones but not to other activities within Ski Area Sub Zones. That is a nonsense.

(b) All of the other exclusions in Rule 6.4.1.3 apply to identified areas of land, not to activities. That is logical and understandable, because a landscape category applies to land, not to activities. The same should apply within the Ski Area Sub Zones.

Relief Requested:

(c) Amend Rule 6.4.1.3.a as follows:

"~~Ski Area Activities within the~~ The Ski Area Sub Zones".

**Point Number** 836.22 **Provision:** 81-6 Landscape > 131-6.4 Rules > 132-6.4.1 Application of the landscape provisions > 136-6.4.1.4

**Position:** Not Stated

**Summary of Submission** Policy 6.4.1.4

Issue:

(a) Policy 6.4.1.4 is unnecessary and inappropriate and legally incorrect. Lakes and rivers are

features. The landscape categories apply to landscapes. There is no issue with lakes and rivers within identified ONLs comprising part of that ONL, but it is a separate exercise to classify an individual lake or river as an ONL (rather than an ON F), and any such approach is not supported by the Council's s32 Analysis.

Relief Requested:

(b) Either delete Policy 6.4.1.4 or amend its wording to make it clear that what is meant is that any lake or river within an identified ONL is part of that ONL.

**Point Number** 836.23 **Provision:** 10-Entire Plan

**Position:** Not Stated

**Summary of Submission** District Plan Default Consent Status - Non Complying

Issue:

(a) The Operative District Plan provides for permitted activity status as the 'default' consent status for any activity not otherwise classified as controlled, restricted discretionary, discretionary, non-complying or prohibited. That approach has worked very well for the last 20 years. No difficulties with that approach have been identified in the s32 Analysis carried out by the Council, whether generally or specifically. The Proposed District Plan makes a significant change to a 'default' consent activity status which is generally non-complying. That change in approach is not justified, and is contrary to the general enabling approach of the RMA.

Relief Requested:

(b) Amend the District Plan to maintain the Operative District Plan permitted activity 'default' consent status for any activity not otherwise specified or listed as having an identified consent status.

---

**Point Number** 836.24 **Provision:** 138-7 Low Density Residential > 251-7.6 Non-Notification of Applications > 253-7.6.2

**Position:** Not Stated

**Summary of Submission** Rule 7.6.2 (and other rules relating to Notification)

Issue:

(a) Rule 7.6.2.1 provides that "Residential development" which is a restricted discretionary activity shall not be notified or limited notified. However there is no specific activity defined as "residential development." This is simply bad drafting. The non-notification rule should refer specifically to the activity being referred to - and it would assist interpretation of the plan if the relevant rule references were included.

Note: This submission point applies to all other chapters of the District Plan where relevant.

Relief Requested:

(b) Amend Rule 7.6.2.1 to correctly refer to the activity subject to the rule, using the same wording, and including relevant rule references.

Note: This requested relief applies to all other rules in the District Plan relating to notification, where relevant.

**Point Number** 836.25 **Provision:** 771-21Rural Zone > 1011-21.7Assessment Matters (Landscapes) > 1019-21.7.2RLC > 1020-21.7.2.1

**Position:** Not Stated

**Summary of Submission** Rule 21.7.2.1

Issue:

(a) Rule 21.7.2.1 is both inappropriate and impossible to apply. By way of example, assessment matter 21.7.2.3.b requires an assessment of "whether and the extent to which the scale and nature of the proposed development will degrade the quality and character of the surrounding Rural Landscape". The wording of that assessment matter is such that it will be impossible to determine whether any particular application is "consistent with" that assessment matter because there is no specified outcome with which it is possible to be consistent.

Relief Requested:

(b) Delete Rule 21.7.2.1.

**Summary of Submission** See full Submission (836) for details:

"Further grounds for the submission points outlined above are that the section 32 evaluation does not establish that the provisions of the Proposed Plan addressed in this submission are most appropriate to achieve the purpose of the RMA, and the evaluation does not adequately assess alternative provisions, such as those proposed in this submission."

Amend as follows:

Temporary Events

Informal airports for rotary wing aircraft flights in association with the use of a site for temporary public events provided that:

- The informal airport is only used during the hours of 0800 – 2000
- No site shall be used for an informal airport for more than 20 ~~7~~ days in any calendar year
- ~~No site shall be used for an informal airport more than four one day in any calendar month~~
- The aircraft operator has notified the Council's Planning Department concerning the use of the informal airport.
- ~~The temporary community event must be open to the general public to attend (whether ticketed or not).~~

For the purpose of this Rule:

The relevant noise standards of the Zone shall not apply.

The Rural Residential zone generally provides for development at a density of up to one residence every 4000m<sup>2</sup>. Some Rural Residential areas are located within visually sensitive landscapes whereas some are located on the fringe of residential areas and have a greater residential feel than rural. Additional provisions apply to development in some areas to enhance landscape values, indigenous vegetation, the quality of living environments within the zone, and to manage the visual effects of the anticipated development from outside the zone. Particularly from surrounding rural areas, lakes and rivers. The potential adverse effects of buildings are controlled by bulk and location, colour and lighting standards and, where required, design and landscaping controls imposed at the time of subdivision. Community facilitates are anticipated activities providing their effects are appropriately avoided, remedied or mitigated.

287-41 Jacks Point Zone

**Position:** Other - Please clearly indicate your position in your submission below

**Summary of Submission**

RCL seeks that the Jacks Point Zone be amended to ensure that state highway access be enabled via Lot 3 DP 475609. The boundary of this lot is shown in yellow in the attachment to this submission. The preferred access point is approximately shown on that attachment as the point marked "X". However RCL seeks that if the this point is to be shown on the Structure Plan, that a variance of the final location of 120m or more in either direction be provided for in the District Plan rules. This will ensure sufficient flexibility to ensure the intersection is located in the best place.

RCL seeks that that rules anticipate this alternative access point. It seeks that resource consents that utilise an access in this location be processed with the same activity status as development that is accessed via Woolshed Road. To do so it seeks changes in the following sections of the proposed Plan:

41.5.3

41.5.6

41.7 (the Structure Plan)

27.8.9

RCL is aware that changes to other parts of the Plan as a result of this submission may also be appropriate. Accordingly, RCL seeks any alternative, amended, or such other relief deemed more consistent with or better able to give effect to this submission or the provisions referred to in this submission.
