Summary of Submission Supports with amendments:

Include explanatory diagram of the relationship between the district plan and other RMA plans and policy documents.

Include the following text:

In addition to the District provisions within this Plan, the RMA also requires national level Policies and Standards to be applied. National Policy Statements state policy on matters of national significance relevant to achieving the purposes of the RMA. A number of National Policy Statements have been enacted and the District Plan must give effect to these National Policy Statements. Similarly, a District Plan cannot contain rules that could duplicate or conflict with regulations in a National Environmental Standard. Similarly The Regional Council has its own rules which cover several Districts. These additional high level provisions will be referred to where practicable to do so. Users of the Plan are responsible

Noise - Ldn: delete the day/night level, . I thought that this measure was not accepted by QLDC when last advertised? Any level of noise can be made to meet a standard by averaging it over a long enough time period. This level has been introduced simply to allow helicopter noise. Why are helicopters a special case? They should meet the noise standards as every other activity is

required to do.

Summary of Submission

- Amend the definitions section of the plan to accord with trade practice and usage so as to distinguish between the activities of removal, re-siting, and relocation of dwellings and buildings.
- Expressly provide in the proposed plan (whether in the definitions or in the activity rules) for the demolition and removal and re-siting of buildings as a permitted activity in all areas and zones, except in relation to any scheduled identified heritage buildings, or any properly established conservation heritage precinct.

Suggested drafting to give effect to this submission is as follows (or the same or similar effect but without limiting the relief sought):

Definitions

"Relocated Building means any previously used building which is transported in whole or in parts and re-located from its original site to its destination site; but excludes any pre-fabricated building which is delivered dismantled to a site for erection on that site.

"Removal of a Building means the shifting of a building off a site"

"Relocation of a Building means the placement of a relocated building on its destination site"

"Re-siting of a Building" means shifting a building within a site.

Summary of Submission

Supports in part, the definition of Visitor Accommodation in the PDP, subject to amending it as follows:

Adding the following sentence to part (ii) of the decision: "For avoidance of doubt, the centralised services or facilities can be used by persons not staying overnight on the site, provided that the primary role of the facility is that of providing visitor accommodation to paying guests"; and

Adding a new part c) as follows: "Where the provisions above are otherwise altered by Zone Rules, the Zone Rules shall apply. It is submitted that the definition of Visitor Accommodation which requires centralised services or facilities to be 'associated' with the visitor accommodation activity is ambiguous and difficult to interpret."

AND such further or consequential or alternative amendments necessary to give effect to this submission

This will eliminate the ambiguity around the requirement for centralised services or facilities to be 'associated' with the visitor accommodation activity.

Summary of Submission	Insert Definition of Critical Electricity Line which include the sub-transmission network within the District. <u>Critical Electricity Line</u> <u>Electrical lines throughout the region that are not covered by National Policy Statement on Electricity Transmission and that are or have the potential to be crucial to the region's quality, reliability and security of electrical supply. These electricity lines are crucial because they contribute to the social and conomic wellbeing and health and safety of the region and are lines that:</u>		

i. Supply essential public services; or
 ii. Supply large industrial or commercial electricity consumers; or
 iii. Supply high numbers of consumers; or
 iv. Are difficult to replace with an alternative electricity supply if they are compromised.
Specified distances from Critical Electricity Lines are to be measured from a point directly below the centreline of the line or cluster of lines, as shown in Fig 1 below.
Fig 1 (See submission for a diagram of Figure 1).

While only critical electricity lines are identified on the planning maps, works in close proximity to all electric lines can be dangerous. Compliance with NZECP 34:2001 as amended from time to time is mandatory for buildings, earthworks, and when using machinery or equipment within close proximity to any electric lines.

Summary of Submission	Definitions - Air Noise Boundary
------------------------------	----------------------------------

Issue:

(a) It is unclear why there needs to be two separate definitions of "Air Noise Boundary", with one applying to all air noise boundaries and the second applying just to the Queenstown ANB. It is also unclear why these two identical definitions should be slightly differently worded. It is difficult to see how deleting one of them could have any meaningful consequence.

Summary of Submission	Definitions - Domestic Livestock
------------------------------	----------------------------------

Issue:

(a) The definition of "Domestic Livestock" raises (at least) the following issues:

(i) The first bullet point makes no reference to 'per property' or 'per site', whereas the second bullet point does.

(ii) The second bullet point refers firstly to "a property" which is not a defined term, and then to "per site" which is a defined term. This inconsistency is undesirable.

(iii) If a control is to be imposed on adult roosters, a similar control should be imposed on adult peacocks which are found on properties in the district and which are noisier and more objectionable than adult roosters.

(iv) In the Note at the end, the words "... as defined by the Plan" should be deleted because they are unnecessary.

Relief Requested:

(b) Amend the definition of "Domestic Livestock" to address the issues raised above.

Summary of Submission Definitions - Dwelling

Issue:

(a) The Operative District Plan refers only to a "residential unit" and contains no reference to "Dwelling". That approach has operated very well for the past 20 years, without causing any difficulties. It is unclear why a new definition of "Dwelling" has now been included, particularly when it is intended to have the same meaning as "residential unit". Including this new definition, together with use of the term "Dwelling" in other parts of the plan, adds an unnecessary complication without achieving anything.

Relief Requested:

(b) Delete the definition of "Dwelling" and amend every other reference to "Dwelling" in the District Plan to read "residential unit".

Point Number 836.6 **Provision:** 54-2Definitions > 56-2.2Definitions

Summary of Submission Definitions - Ground Level

Issue:

(a) The third bullet point of the definition of "Ground Level" potentially creates a problem. Up until a few years ago the Council did not require a subdivider to obtain separate land use consent for earthworks associated with a subdivision. However a few years ago the Council changed its interpretation of the provisions of the Operative District Plan and started requiring subdividers to obtain separate land use consent for all earthworks associated with a subdivision. As a consequence, under the Operative District Plan, subdivisions have changed the defined "Ground Level" of subdivided sites through land use consents obtained for earthworks associated with the relevant subdivision. It appears that the third bullet point in this definition of "Ground Level" (together with the first bullet point) may operate retrospectively to change the ground level applicable to sites created through subdivision consents issued under the Operative District Plan.

Relief Requested:

(b) Either delete the third bullet point from this definition, or make such other amendments as are necessary to ensure that this bullet point only applies to subdivision consents granted after the date that Plan Change 49 (which created the new earthworks chapter) became operative, or such other relief to avoid this retrospective consequence.

Issue:

(a) The definition of "Ground Level" excludes ground level for the Remarkables Park Zone and excludes ground level for the Industrial B Zone (O'Connell Terrace Precinct). Immediately following is a separate definition for ground level in the Remarkables Park Zone. It is unclear whether there should also be a separate definition for ground level relating to the Industrial B Zone (O'Connell Terrace Precinct).

Summary of Submission Definitions - Minor Alterations and Additions to a Building

Issue:

(a) This submission point is lodged to enable this definition to be reconsidered. The following points are made:

(i) Are there any other kinds of timber apart from "natural... timber", and if there are, why are they excluded?

(ii) Why is there any concern about the material (or colour) of an exterior deck?

(iii) Many natural timbered decks start a dark colour but then bleach very pale over time. There are clear stains intended to maintain a darker colour. Why does the definition allow dark stains but not allow clear stains?

(iv) Why does the definition exclude modern products which are not timber but are designed and intended to look like timber (and last longer, without warping)?

(v) Why is it necessary to say that a deck must comply with applicable rules and standards for activities and not apply the same comment to other external alterations referred to in the other two bullet points? (the point being that the second sentence of the first bullet point is unnecessary).

(vi) In the third bullet point, the third use of the word "materials" makes a nonsense of the bullet point.

Summary of Submission Definitions - National Grid

Issue:

(a) The definitions relating to the National Grid have probably been supplied by Transpower. No thought appears to have been put into amending them to fit into this District Plan. The following

points are noted:

(i) There is no definition of "National Grid".

(ii) The definition of "National Grid Sensitive Activities" uses terms similar to, but different from, terms defined in this District Plan. For example it includes reference to "Child Day Care Activity" and "Day Care Activity" whereas the defined term in this District Plan is "Day Care Facility" (and there are other similar mis-references).

(b) The diagram in the definition of "National Grid Yard" is meaningless because, the way it is copied, the diagram does not show the different parts detailed in the Legend.

Relief Requested:

(c) Review and amend all definitions relating to the National Grid so that they make sense, are understandable, and are consistent with defined terms in this District Plan.

Summary of Submission	Definitions - OCB
------------------------------	-------------------

Issue:

(a) The following points are noted:

(i) There are two separate definitions, one of which appears to relate to Queenstown Airport and the other to Wanaka Airport, but there is no reference to either Queenstown Airport or Wanaka Airport in the relevant definition;

(ii) The wording in the two definitions is inconsistent, particularly noting one reference to "55 dB Ldn" and another to "55 dBA Ldn";

(iii) Are the two year references meant to be different?

Relief Requested:

(b) Amend these two definitions to address the issues detailed above.

Summary of Submission	Definition - Residential Flat
------------------------------	-------------------------------

Relief Requested:

(b) The following relief is requested:

(i) Replace the 70m2 GFA limitation with the previous 35% GFA limitation formula.

(ii) Delete the reference to leasing, or shift it into the Advice Notes below (refer following point) and make it clear that the reference to "leasing" means any form of use by somebody other than the occupants of the residential unit, whether commercial or non-commercial.

(iii) Either delete the Notes or make it clear that they are Advice Notes for information purposes and are not part of the definition.

Summary of Submission	Definitions - Capitalisation (General Point)
------------------------------	--

Issue:

(a) All of the definitions, and in fact the entire District Plan, should be reviewed so that either capital letters are used for defined terms everywhere or they are generally not used (except perhaps in headings). To point to only one of numerous examples, the definition of "Residential Activity" refers to "Community Housing" [with capitals] and then refers to "visitor accommodation" [without capitals].

Relief Requested:

(b) Review the entire District Plan to achieve consistent use of capitals when referring to defined terms (the preference being to minimise use of capitals, which is currently considered the better approach to drafting).
